AHMEDABAD DISTRICT

Headquarters: Ahmedabad.

Talukas or Mahals: Daskroi, Dhandhuka-Ranpur, Dholka, Dehgam, Viramgam, City Taluka, Sanand.

A District in Gujarat belonging to the Gujarat Division of Bombay State. It lies between North Latitude 28° 23' and 23° 37' and East Longitude 71° 21' and 70° 28'. It is bounded on the north by Mehsana and Sabarkantha Districts, on the west by Zalawad District, on the south by Gohilwad District and on the east by Kaira. The total area of the District is 3,529 sq. miles. The population is 1,685,630. The language spoken is Gujarati.

In the extreme south of the District and also just beyond the northern boundary are a few rocky hills. But between these two points the whole District forms a level plain, gradually rising towards the north and east. The chief physical feature is the river Sabarmati which rises in the north-east, near the extremity of the Aravalli Range and flows towards the south-west falling finally into the Gulf of Cambay.

The District as a whole is open and poorly wooded. The chief trees are mango, rayan, mahua and nilu. Many of the trees and shrubs supply food, medicines and material for dyeing and tanning.

The rainfall varies but slightly between the central portions of the District and the outlying tracts. The annual rainfall averages about 80 inches.

The principal towns in the District are besides Ahmedabad, Viramgam, Dholka, Daskroi, Dhandhuka, Dholera, Dehgam and Sanand. Dehgam taluka has been selected for development under the village extension services scheme.

The chief food crops are wheat, jowar and bajra and the chief money crop, cotton. The best rice is grown in Daskroi and the next best in Sanand and Dholka. The cotton which has a good staple is mainly grown in the Dhandhuka and Dholka Talukas. In Daskroi and Dholka many garden crops are also grown.

Ahmedabad city which is the second biggest textile centre in India is the only large industrial area in the District. The number of textile mills and factories is about 160 including 71 textile mills. Ahmedabad is also a centre of railway communications. One line from Ahmedabad goes south-east to Baroda and Bombay; another goes south to Dholka; a third goes west to Viramgam where it joins the Saurashtra railway system; a fourth goes north-east through Parantij; and a fifth north through Palampur and Ajmer. Ahmedabad has also a number of archaeological landmarks.

With the establishment of the Gujarat University, Ahmedabad has become an important educational centre. It has over 21,000 alumni in Gujarat, Saurashtra and Kutch. The Ahmedabad Textile Industry's Research Association is the first institute of its kind in the whole of India. Ahmedabad is linked by air with Bombay, Jaipur, Delhi and Karachi.

The population of Ahmedabad City according to the 1951 census is 788,333. Ahmedabad Corporation was established in 1950.

HAROLD LASKI INSTITUTE OF POLITICAL SCIENCE Mavalankar's Havell, Bhadra, Ahmedabad 1.

The Institute was inaugurated by late G. V. Mavalankar, Speaker of the Lok Sabha on 15th August 1954. It is an educational and non-partisan body, founded to encourage and facilitate the scientific study of political questions and problems. The Institute, as such, does not express an opinion on any aspect of political theory or practice. It conducts a Reference Library, a Lending Library and Reading Rooms, and holds monthly seminars and discussions and arranges talks with a view to better understanding the various issues of past and current political problems. In pursuance of these aims, the Institute brings out publications from time to time and also runs a bi-annual journal 'Laski Institute Review'.

AHMEDNAGAR DISTRICT

Headquarters: Ahmednagar.

Talukas: Nagar, Rahuri, Newasa, Shrirampur, Sangamner, Akole,
Kopergaon, Shegaon, Pathardi, Jamkhed, Shrigonda, Parner,
Karjat.

Ahmednagar, a centrally situated District in the Marathi speaking
area of the Deccan, lies between North Lat. 18°20' and 20° and East
Long. 73°43' and 75°41'. It is bounded on the north and north-west
by Nashik District, on the north-east by the river Godavari, on the
south-east and south-west by Bhir, Sholapur and Poona Districts.
The principal geographical feature is the chain of Sahyadri Hills and
the river Godavari. Despite the fertility of its soil the District is liable
to famine owing to uncertain and scanty rainfall. A large part of
the District is irrigated by the confluence of the rivers Godavari and
Pravara which has encouraged sugar-cane plantation on a wide scale.

The area of the District is 6,602 sq. miles and the population
according to the 1951 census is 1,410,878 registering a rise of 23.5 per
cent over the 1941 census figure. The language spoken is Marathi.

Industrially, the northern part of the District is fairly well de-
veloped. There are eleven large-scale sugar factories and two first
class and up-to-date tanneries. Leather from these tanneries is
exported mainly to Pakistan. The hand-power woollen carpet
factory at Kendal in Rahuri Taluka exports carpets to foreign coun-
tries. The Sisal Fibre Industries Centre conducted by the American
Marathi Mission at Ahmednagar manufactures and exports fancy
articles to foreign countries. Three iron foundries in Ahmednagar
town manufacture and supply agricultural implements and building,
sanitary, sewage and machinery accessories. Ahmednagar, Bhingar,
Pathardi and Sangamner are the four main centres of handloom
weaving industry, the total number of handlooms being over 4,500.
There are also cotton ginning, pressing and power loom factories in
Ahmednagar. Manufacture of bida, brassware, oil expelling, leather
goods and sisal fibre ropes and sacks are major cottage industries
in the district.

The staple food grains are jawar and bajra. Wheat and gram
are grown in the vicinity of the rivers and rice in the westernmost
Akole Taluka including other irrigated areas. Vari and ragi are
cultivated in soils which are suited to coarser grain. The pulses are
tur, mug, math and kulith. Among the cash crops may be men-
tioned cotton, hemp, safflower, sesamum, linseed, sugarcane, tobacco,
kharil, pan, groundnut and potatoes. Sweet lime orchards
are also grown.

Part of the forests possesses teak of excellent quality. The char-
acteristic trees of the Western forests are however, anjan, jambul,
behele, aia and karvand.

The chief historical places of interest to visitors are the Ahmed-
nagar Fort and the residential palaces of the Shindhas and the
Peshawas at Jamnagon and Kopergaon respectively. The tombs of
Mughal Emperor Aurangzeb are situated on the outskirts of Ahmed-
nagar town. The temple of Dayaneshwar, the saint poet of Maha-
bhara, is situated at Newasa on the banks of river Pravara. Here
Dayaneshwar wrote his famous commentary on Gita. Excavations
undertaken in the vicinity of this town have yielded valuable finds
of prehistoric import.

The imports consist chiefly of piecegoods, tin-plates, metals,
groceries, salt, yarn and silk.

The exports consist chiefly of sugar, gur, cotton, leather, pulses,
cane, sisal fibre, oilseeds, fruits, handloom products, bida, eggs,
flowers and vegetables.

Limestone is fairly abundant in the District and also trap suitable
for building purposes. Other minerals are basalt, quartz, chalcedony,
agate, crystals.

Among industries sugar is now one of the most important. There
are eleven sugar factories in the District. Of these, five factories are
run by the sugarcane growers on a co-operative basis. Gur making,
hand-loom weaving, iron foundries and bida making are the other
important industries.

There are ten irrigation tanks in the District.

There are over 54,400 wells in the District irrigating about
168,000 acres.

Kalsubai, the highest peak of the Sahyadri hills is situated in this
District, the height of the peak being 5,430 feet above sea level.
Bhandardara dam is situated at the base of the Kalsubai hills. Five
miles downstream of this dam is situated the picturesque Pravara
river falls at village Bandha.

Harikhandragad and Patta Killa are the two hill stations situated
at a height of 4,691 and 4,587 feet respectively.

OFFICIALS

Collector and District Magistrate, R. A. Zohairy, I.A.S.
District and Sessions Judge, V. R. Paralkar.
District Superintendent of Police, N. K. Khot.

EDUCATIONAL INSTITUTIONS

Arts and Science College, Ahmednagar.
Puntamba Agricultural School, Puntamba.
Ayurveda Mahavidyalaya College, Ahmednagar.
Government Technical School and Training Centre, Ahmednagar.

There are five Primary Training Colleges, of which two are conduct-
ed by missionaries and all aided by Government.

There are about 56 Secondary High Schools in the district out of
which three high schools are exclusively for girls.

Women's Rescue Home, Ahmednagar.

AKOLA DISTRICT

Headquarters: Akola.

Talugs: Akola, Balapur, Murtaipur, Akot, Mangrul, Washim.

Akola is a district in Berar with an area of about 4,091 square miles and a population of 950,994. It lies roughly between North Latitude 19° 50' and 21° 16' and East Longitude 76° 45' and 77° 52'. It is bounded on the north by the Satpura Hills, on the south by the Ajanta and Satmal Hills, on the east by Amravati and Yeotmal Districts, and on the west by Buldana District.

The greater part of it is fertile alluvial land but the Satpura plateau rises abruptly on its northern border with the ancient fort of Narnala nestling on one of the hills and commanding the whole Poorna plain. Also a range of steep hills runs across the middle of the southern Taluqs. The average rainfall is 30 inches and the temperature in summer rises in certain places to 118 degrees during the day.

The Central Railway line from Bhusawal to Nagpur runs east-west through the District and has two small meter gauge sectors branching off at Murtilapur, one going south to Yeotmal, and the other going north to Amravati District. Besides this the District has a fine network of good roads connecting it with other District and Taluq centres and railway lines.

The District is mainly agricultural but there are cloth mills, a number of cotton ginning and pressing factories, oil mills.

The total cropped area extends to about 22 lakhs of acres—one-third of which is generally under cotton and two-thirds under other Kharif crops.

OFFICIALS

Collector, D. H. Deshmukh.

District Superintendent of Police, V. V. Naik, I.P.S.

District and Sessions Judge, M. V. Bansod.

AMRAVATI DISTRICT

Headquarters: Amravati.

Talugs: Amravati, Chandur, Morshi, Achalpur, Daryapur, Melghat.

Amravati District lies roughly between North Latitude 20° 30' and 21° 40' and East Longitude 76° 55' and 78° 30'. It is bounded on the north by Betul District, on the east by the Wardha River, on the south by the Districts of Yeotmal and Akola, and on the west by Buldana and Nimar Districts. The area of the District is 4,691 sq. miles and the population 1,031,160. The language spoken is Marathi.

Amravati is a plain about 800 feet above sea-level, the soil of which is principally black loam overlying basalt, with a gentle slope from north to south, watered by numerous streams. A small chain of barren and stoney hills runs in a north-westerly direction between Chandur and Amravati town, with an average height of 400 to 500 feet above the lowlands. The District is on the whole fertile.

COMMUNICATIONS

The Bombay-Nagpur branch of the Central Railway traverses the District from west to east and Amravati town is connected with the main line through Badnera junction. The chief roads are those from Amravati towards Achalpur and Chandur Bazaar, to Puala through Morel and from Murtaipur to Karanja Bibi.

AGRICULTURE, INDUSTRY

The staple food grain is jawar. Other food grains are wheat and pulses. Cash crops include cotton and oilseeds, of which cotton is the more important.

Cotton cloth and yarn are manufactured but the principal industry is the preparation of cotton for the market.

Raw cotton is the chief export, the only other exports worthy of mention being oilseeds, grain and pulses. The chief imports are grain and pulses, coal and coke, salt and sugar.

ASSOCIATIONS

Hanuman Vyayam Prasarak Mandal, Amravati.

KALA-NIKETAN (GOVT. TECHNICAL HIGH SCHOOL) Amravati.

Headmaster: D. K. Borwankar.

SHARADA UDYOG MANDIR

Near Jayetambh, Amravati.

It is a charitable cottage industry institution to help widows and poor women by teaching handicrafts, tailoring, embroidery, etc.

It also runs a training-cum-production centre. A Railway Canteen is run by the institution at Badnera, the profits from which are utilised for the welfare of women. There is also a Handicraft School.

AMRELI DISTRICT

Headquarters: Amreli.

Talukas and Mahals: Amreli, Kodinar, Dhari, Okhamandal, Damnagar, Khambha, Ghogho.

Amreli, formerly part of Baroda State, is now part of Bombay State. It is not one block of territory but is composed of a number of separate parts intersected by territory belonging to other districts.

The area of Amreli District is 1,586 square miles and population 317,203.

The District is level country broken only by Gir Hills in the Dhari Taluka. The average yearly rainfall is between 23 to 25 inches. About 90 per cent of the land is dependent wholly on rain-water while only 10 per cent is irrigated by water from wells and streams.

The principal crops are bajri, jawar, groundnuts, cotton, wheat, gram, sugarcane, rice, sesamum, maize, mung, udad and kaithi. About 25 per cent of the land is under bajri cultivation and about 50 per cent under groundnut cultivation. As groundnut fetches a high price and the soil is suitable, it is extensively cultivated. Production of oil from groundnut and sesamum is one of the chief industries of the place, which has about 25 oil mills. Other industries include cotton ginning and the production of khadi.

The principal means of communication are the railways which run through almost all the chief places in the District. To supplement the railways there are bus services from Taluka headquarters to outlying areas.

The Okha Port in Amreli District, which was greatly developed during the time of the two last Gaekwars of Baroda, is one of the best deep sea ports in India. In Okhamandal Taluka, Port Okha, Mithapur and Dwarka have become industrial centres. There are some big industries at these places namely Dwarka Cement Works, the Tata Chemicals Ltd. and the Burmah-Shell Oil Storage and Distributing Co. Dwarka is famous for Ranchhodrai temples. In Kodinar Taluka, there are a number of ports, which are chiefly used by the fishing industry and country craft.

OFFICIALS

Collector and District Magistrate, P. N. Patel.
District Superintendent of Police, D. K. Patel.

AURANGABAD DISTRICT

Headquarters: Aurangabad.

Talukas and Mahals: Aurangabad, Kannad, Vajapur, Gangapur, Bhokardan, Ambad, Palthan, Jalna, Jafferabad (Mahal), Khuldabad (Mahal), Bilkod, Soegaon (Mahal).

Area: 6,318 sq. miles; Pop. 1,179,404.

The District may be divided into the uplands in the north and the lowlands in the south, the latter terminating in the valley of the Godavari. The hills in the District—the Satara, Ajanta, Kannad, Mahadeo, Gastala—have a terrace-like appearance with flattened summits.

The most important river is the Godavari which forms the southern boundary of the District. The principal tributaries in the District are the Sina, the Dhanda, and the Dedna.

The lower slopes of the hills are well-wooded. The animals found in the District include wild dogs, bears, wolves and occasionally tigers and leopards.

The climate is generally healthy but during the monsoon and the cold season there can be malaria. The uplands are dry and healthy and the mean temperature for the whole year is around 80°. The average annual rainfall is 23 inches.

The most important cave temples in India—at Ellora and Ajanta—are found in this District. The great fort of Daulatabad is an extraordinary structure; the village of Khuldabad has the tombs of the

Emperor Aurangzeb and of Asaf Jah, the founder of the former ruling dynasty.

The soil is of two kinds, the mesah and the milwa. Jawar, bajra and wheat are the chief food-crops. Pulses and rice are next in importance. Cotton and oilseeds are largely grown.

Teak is the predominant species in the forest. A considerable portion contains only brushwood and small trees.

There are no minerals of economic value. Lime-stone, basalt and granite occur all over the country.

The chief exports are cotton, food grains, oil-seeds, silk stuff, tobacco, jaggery and metal vessels. The principal imports are rice, salt, piece-goods, sugar, kerosene and hardware.

A branch of the Central Railway runs from east to west.

Aurangabad is now the headquarters of the Marathwad University.

OFFICIALS

Collector, B. A. Kulkarni, I.A.S.
District Superintendent of Police, M. G. Gaval, I.P.S.
District and Sessions Judge, Govind Rao Mainkar.

AURANGABAD MILLS LTD., Spindles 12,640. Looms 271;
Managed by Board of Directors, Empire House, Dadabhai Naoroji
Road, Fort, Bombay 1; Mills at Kothwalpura, Aurangabad.

BANASKANTHA DISTRICT

Headquarters : Palanpur.

Talukas and Mahals :—Palanpur, Deesa, Dhanera, Vadgam, Tharad, Wav, Deodar, Kankrej, Danta.

The population of the District according to 1951 census, is 696,367, the area 3,682 sq. miles.

OFFICIALS

Collector, K. Sivaraj, I.A.S.

District Superintendent of Police, P. G. Nawani, I.P.S.

(For Judicial purposes Banaskantha is under Mehsana.)

BARODA DISTRICT

Headquarters : Baroda.

Talukas and Mahals :—Baroda, Savli, Vaghodia, Padra, Karjan, Sinor, Dabhol, Sankheda, Naswadi, Chhota-Udepur, Jabugam, Baroda City.

Geographically, Baroda District (which is one of the five blocks into which the Baroda State was divided) forms a central compact block in the heart of Gujarat. It lies between North Latitude 21° 41' and 22° 32' and East Longitude 73° and 74° 10'. It is bounded on the north by the Kaira District beyond the river Mahi, and Panch Mahals on the north-east. It stretches roughly from south to north from the banks of the river Narmada to the river Mahi except for a small tract on the west and south-west boundary constituting the talukas of Amod, Vagra and Jambusar. The District is about 40 miles long and 35 miles broad. In the east it now stretches right upto the eastern boundaries of Bombay State. The eastern portion of the District is of a variegated nature, entirely undeveloped, largely because till the date of integration it was governed by petty Thakors and Taluqdars.

The area of the District is 2,788 sq. miles and the population 11,94,746.

The most important portions of the District are Kannon which produces some of the finest cotton in India and Chornai and Vakil in Sankheda and Vaghodia Talukas. The picturesque bank of the river Narmada stretching over 100 miles in length abound in archaeological remains, temples, shrines. Besides Narmada and Mahi other rivers flowing through the District are Jambus, Surya, Vishwamitri and Dhadhar draining into the Gulf of Cambay while the rivers Or, Heran, Uchha are tributaries of the larger rivers.

Villages in Baroda provide amenities which do not generally exist elsewhere. Most villages have well conducted panchayats and possess institutions like schools, libraries, co-operative societies conducted on sound lines. The District as a whole has over 700 primary schools, 500 libraries, 300 gymnasiums and welfare associations.

The District is poorly wooded except in the east. The annual rainfall averages about 30 inches and varies only slightly from one place to another. The chief food crops are wheat, jowar, bajra, pulses, kodra, kodri, bawta, maize. Rice is now grown extensively interspersed with cotton. This latter together with tobacco, castor, and other oilseeds form the principal money crop. Baroda is a deficit District for food. In Padra, Karjan and Baroda Talukas many garden crops including vegetables and fruit are grown. Baroda does not possess adequate irrigation facilities like large reservoirs or hydro-electric works except wells. Considerable attention was given to the construction of wells in recent years.

The District is served by the Grand Trunk Road connecting Bombay, Ahmedabad, Baroda, Godhra, Indore and Delhi. There are about 250 miles of narrow gauge railway.

Baroda, the headquarters of the District is a historic and ancient city, and was the capital of the State till the State ceased to exist. It is fully modernised and is famous for its beautiful buildings, palaces, parks, avenues, recreation grounds, schools, colleges, hospitals, public libraries and broad, well laid out roads, and can stand comparison with any of the cities of the same size in India. The District is also well advanced in industry. In recent years a number of factories, big and small have sprung up. The more important lines of development are textiles, chemicals, oil and soap, engineering, metal works and foundries, rolling mills, and manufacture of glassware, etc., providing employment to about 30,000 workmen.

Baroda has a full-fledged University with affiliated colleges providing courses in the humanities, Science, Technology, Social Work, Domestic Science and Music. The Maharaja Fatehsingh Rao Gaskwad of Baroda is its Chancellor and Dr. Jyotindra Markand Mehta is the Vice-Chancellor.

Medical relief is so well organised that it is worth a special note. Among the larger medical institutions the most important is the Shri Sayajirao State General Hospital in Baroda city, which contains all special departments like pathology, surgery, radiology, dentistry, ophthalmology, midwifery, gynaecology and children's diseases. There is also the Shri Jambhal Hospital run by the Government.

Separate institutions also exist for medical relief to women and children. Other important institutions in the city are the Mental Home, the Leger Asylum and a branch of the Indian Red Cross Society.

The Shri Padmavati Tuberculosis Hospital and Sanatorium located some 8 miles from Baroda city is well-equipped with scientific appliances and a clinic provides treatment for people suffering from tuberculosis.

OFFICIALS

Collector, R. M. Desai, I.A.S.

District and Sessions Judge, C. G. Bhatt.

District Superintendent of Police, P. D. Jadega.

MAHARAJA SAYAJIRAO UNIVERSITY OF BARODA

The Maharaja Sayajirao University is a teaching and residential University established in 1949 under an Act of the former Baroda State and incorporated in the Statute by the Bombay Government following the merger of the State with Bombay. All the colleges and recognised institutions situated within the University area specified in the Act, became the constituent parts of the University and were with the exception of the Medical College, Museum and Picture Gallery managed by the University. These constituents include:—the Faculties of Arts, Science, Education and Psychology, Commerce, Medicine, Technology and Engineering, Fine Arts, Home Science and Social Work, Intermediate College, College of Indian Music, Dance and Dramatics, Polytechnic, the Oriental Institute and the Baroda Sanskrit Mahavidyalaya.

The University has instituted an ayurvedic research section in the medical college, Baroda, called Sheth Ujamsi Pitamberdas Ayurvedic Research Unit named after the donor who had created a trust and started an ayurvedic college at Patan.

The University instituted in 1952, a post-graduate diploma in Museology too, and the department is located in the museum and picture gallery. Museology is also included as one of the compulsory subjects for students of the Faculty of fine arts offering applied arts.

From June 1953, the Faculty of technology and engineering has introduced a course in textile engineering leading to the degree of Bachelor of Textile Engineering, the first of its kind in India. From June 1955, a course in Textile Technology leading to the degree of Bachelor of Textile Technology has also been introduced in this Faculty.

The University started a post-graduate diploma in Banking, the first of its kind in India, from June 1954 and a post-graduate diploma in Library Science from June 1956.

The Ramayana Department, started in the Oriental Institute, to publish an illustrated critical edition of Valmiki Ramayan, is progressing well.

A specialised course for training of Social Education Organisers for the Community Projects has been started in the Faculty of Social Work from 1955.

A Home Science Wing has been started for the training of Gram-sevikas for the Government of Bombay.

The University has introduced the three-year degree course in Arts, Science and Commerce from June 1957.

Budget for 1957-58 : Income : Rs. 41,95,436 including Government of Bombay Grant of Rs. 18,87,070. Expenditure : Rs. 43,80,861.

Chancellor, His Highness Shrimant Fatesinh Gaskwad, Maharaja of Baroda, Sena Khas Khel, Samsher Bahadur, Maharaja of Baroda.

Vice-Chancellor, Dr. Jyotindra Mehta.

BHANDARA DISTRICT

Headquarters: Bhandara.

Tahsils: Bhandara, Gondia, Sakoli.

The District lies roughly between North Latitude 20° 31' and 21° 44' and East Longitude 79° 29' and 80° 43'. It is bounded on the north by Balaghat District, on the east by the former States of Khairagarh and Nandgaon, on the south by Chanda District, and on the west by Nagpur District. The area of the District is 3,623 sq. miles, and the population 1,071,657. The chief language is Marathi but Hindi is also spoken by a considerable section of the population.

PHYSICAL FEATURES

The surface is generally open and level, being broken only in a few places by isolated ranges of hills. The main river is the Wainganga and practically all the others are its tributaries. The Wainganga enters the District on the north-east and flows diagonally across until it passes within a mile of Bhandara town on the south-west, its valley lying between two ranges of hills. After this it flows to the south and then turning again south-east cuts off the small and fertile strip of Pannu from the rest of the District. Its width in Bhandara is about 500 yards but opposite Pannu it broadens to half a mile. The principal tributaries of the Wainganga are the Bagh, the Chulband, the Pannoli, the Chaudan, the Bawanthari, and the Sur. The valleys of the Wainganga and the Bagh have been called the "lake region" of Nagpur from the number of large artificial tanks constructed for irrigation which form a distinctive feature of the country. The larger tanks are irregular lakes, their banks formed by rugged hills, covered with low forest that fringes the waters. The Sakoli Tahsil or southern portion of the District consists largely of hill and forest. Elsewhere the country is for the most part open and closely cultivated, and the expanses of rice and wheat fields thickly studded with fruit-bearing trees and broken by low, flat topped hills present a pleasant and prosperous appearance.

The climate is generally cooler than that of Nagpur and the highest temperature in the hot season is usually not more than 112°. The nights if the sky is clear are nearly always cool. In winter the nights are cold though it never actually freezes. The annual rainfall averages 56 inches.

COMMUNICATIONS

Gondia may be regarded as the centre of railway communications. A line from Gondia goes north to Balaghat, a second goes south to Pratappad, a third south-west to Bhandara and a fourth south-east to Rajnandgaon. The Gondia-Bhandara line has a branch to Tirodi at Tumsar Road.

The most important roads are the great eastern road running through the south of the District, and the roads from Tumsar to Rampalli and Katangi, from Gondia to Balaghat, and from Tirora to Khairanjli.

FOREST, AGRICULTURE, INDUSTRY

The forests generally cover and surround the hill ranges. Teak is found on the higher hills and bamboos abound. The other timber trees are Sal, Lenda and Bijasal or Beal. Mahua is abundant in the open country and the usual fruit-bearing and sacred trees surround the villages. The grasses called Kusal and Ghonar are principally used for thatching and Muzal for fodder. Kans sometimes invades wheat fields.

The principal food crops are rice, jawar, wheat, gram, linseed and pulses. Ginger, oranges and plantains are also grown and sent to Nagpur.

Mineral deposits include those of manganese, iron and a little gold.

The chief industries are weaving, making of brass vessels and stone jars, of soft grass matting for bedding, and of bamboo baskets.

OFFICIALS

Collector, S. M. Kamruddin, I.A.S.

District Superintendent of Police, C. V. Bapat.

BHIR DISTRICT

Headquarters : Bhir.

Talukas and Mahals : Mominabad, Manjegaon, Gevrai, Bhir, Ashti, Patoda (Mahal), Kirj.

Area : 4,379 sq. miles ; Pop. 826,046.

Geographically the District can be divided into two parts, the highlands forming the south and east and the rest forming the lowlands. A low spur of the Western Ghats traverses the District in a generally eastern direction.

The biggest river is the Godavari which runs along the northern boundary. The smaller rivers are the Manjra, the Sindphana, the Bendsura and the Vijarta. The forest area is limited and so is large game. The climate is generally healthy and temperate, but in the lowlands it is warm and humid. The average rainfall is about 30 inches.

There are forts and buildings at Bhir which are of archaeological interest. Amba has a temple dedicated to Jogai. The temple of Rajnath at Parli is a celebrated place of Hindu pilgrimage.

The soil is mostly black cotton. On this are grown cotton, white jawar, gram, gingelly and wheat, while on the masab and kharab soils are grown white bajra, yellow jawar, pulses and oilseeds. Cotton and linseed are produced extensively in the District. The staple food crops are jawar and bajra. Wheat and rice are next in importance.

The District has no minerals of economic value. Granite, basalt and limestone which are found everywhere are used for building.

The industry is of little importance. The principal exports are jawar, wheat, cereals and pulses, cotton, linseed, sheep, bones, jaggery, the chief imports are salt, sugar, kerosene and cloth.

There are no railways in the District.

OFFICIALS

Collector, B. K. Halve, I.A.S.

District Superintendent of Police, S. M. Paranjape, I.P.S.

District and Sessions Judge, Renukadas R. Deshpande.

BROACH DISTRICT

Headquarters : Broach. **Sub-Division :** Rajpipla.

Talukas and Mahals : Broach, Vagra, Amod, Jambusar, Ankleswar, Hansot, Nandod, Jhaghadia, Valia, Dediapada, Segbara.

Broach District is bounded on the north by the river Mahi, on the east and south-east by Baroda District, on the south by the river Kim and on the west by the Gulf of Cambay.

The area of the District is 2,934 sq. miles and the population according to 1951 census 706,035. The language spoken is Gujarati.

The soil is of the black cotton variety and is highly fertile, producing the famous Broach cotton, one of the best in India. Other agricultural produce includes wheat and lang. Timber, charcoal and some kinds of forest produce are available owing to the merger of the State of Rajpipla with the District.

There are two textile mills in the District (both in Broach) and spinning and pressing factories.

The main line of communication is the Western Railway which runs through the District from south to north.

Broach is one of the oldest seaports in Western India and is still a prominent port for country craft. The city has a fair, a dharmasala and a P.W.D. inspection bungalow.

The Jayendrapuri Arts and Science College, was opened in June 1953.

OFFICIALS

Collector and District Magistrate : V. S. Mahajani, I.A.S.

District and Sessions Judge : Y. D. Desai.

District Superintendent of Police : G. K. Kasture, I.P.S.

BULDANA DISTRICT

Headquarters : Buldana.

Taluka : Chikhli, Mohker, Malkapur, Khamgaon, Jalgaon.

This Bhar District lies roughly between North Latitude 19° 45' and 21° 17' and East Longitude 74° 30' and 77° 10'. It is bounded on the north by the Districts of East Khandesh and Nimar, on the south by Aurangabad and Parbhani, on the east by Akola, and on the west by Aurangabad and East Khandesh. The area of the District is 3,700 sq. miles and the population 870,168. The language spoken is Marathi.

The principal means of communication is the Bombay-Nagpur line of the Central Railway which runs through the northern portion of the District from west to east for a distance of about 28 miles.

Jawar is the chief food crop, though wheat is also grown. The most profitable cash crop is cotton with oilseeds coming next.

The principal industry is the preparation of cotton for the market. Exports consist of raw cotton, oilseeds, grain and pulses, and the imports include grain and pulses, coal and coke, sugar and salt.

OFFICIALS

Collector, G. G. Desai.

District Superintendent of Police, M. N. Gadgil, I.P.S.

CHANDA DISTRICT

Headquarters : Chanda.

Tahsils : Chanda, Warora, Brahmapuri, Garchiroli, Sironcha.

The District lies roughly between North Latitude 18° 42' and 20° 45' and East Longitude 78° 48' and 80° 45'. It is bounded on the north by the Wardha, Nagpur, and Bhandara Districts, on the west by the Yeotmal District and Andhra, and on the east by the Durg and Bastar Districts. The area of the District is 9,312 sq. miles, and the population 977,618. The languages spoken are Marathi, Hindi, Telugu and Gondli.

PHYSICAL FEATURES

The shape of the District is an irregular triangle, with its base to the north and tapering to the south. The Wardha, Pranhita and Godavari rivers successively mark the western border, while to the north the Wunna river divides Chanda District from Wardha District for a short distance. The western portion between the Wardha and Eral rivers and a small strip along the north consist of undulating open country. East of this to the Wainganga the surface is generally broken either by isolated hills or small ranges; large areas are covered with forest, and the soil is generally sandy. The Wainganga flows from north to south through the centre of the District to its junction with the Wardha. The greater part of the country to the east of it consists of an elevated plateau stretching from north to south along the entire length of the District, from which again rise numerous ranges of hills, while dense masses of forest extend over plateau and valley alike. The general height of the plain country is about 900 feet above sea-level in the north falling to 658 feet at Chanda and 406 at Sironcha. Except in the open country on the west and north, the whole District is thickly wooded.

The District still retains several memorials of its past glory in the ruins of its forts and palaces round about Chanda town. There are several picturesque spots worth seeing and useful for shikar.

The forest vegetation in the District is of a mixed character. Teak is fairly general but is not anywhere very plentiful. The principal trees are Sal, Bijaal, Rohan, Kaddan, Haldai, Semal, Mahua, Dhaura, Tendu, Garari and Palas. Salai is very abundant on the dry hills and plateau. Other trees met with are Satin-wood, Keunja, Bahera and Siris. Near villages tamarinds and mangoes abound, and in the south of the District groves of the palmyra palm occur. The forests are well distributed, and very few villages are more than three miles from some part of them.

The climate is slightly hotter than that of Nagpur, and the heat of the summer months is trying. On the whole, however, the climate is healthy. The annual rainfall averages about 51 inches at Chanda Town and 46 at Warora. Failure of rainfall is very frequent.

From Chanda a railway line goes north-west to Wardha, another goes first north-east upto Nagbhir from where one branch goes to Gondia and another to the north and north-west to Nagpur, while a third goes south-east to Balharshah. Considering its size the District is not particularly well provided with roads. The Mui and Sironcha roads are the most important routes leading from Chanda into the interior of the District. During the rainy season some produce is carried by boat on the Wainganga.

AGRICULTURE, INDUSTRY

Rice which is the most important crop is grown in the centre and east of the District. Jawar is the chief crop in Sironcha and the Warora Tahsils, while linseed, gram and wheat are grown principally in the black-soil lands of the Chanda Haveli and those adjoining the Wardha river. Cotton is also an important cash crop.

Coal-mines occur and there are match factories, ceramic industries and paper manufacture.

OFFICIALS

Collector, Q. M. A. Wahab, I.A.S.

District Superintendent of Police, G. L. Limaye.

DANGS DISTRICT

Headquarters : Ahwa.

Tahsils : Danga.

Danga District lies between north latitude 20° 33' and 21° 3', east longitude 73° 28' and 73° 57'. The area is about 658 sq. miles and the population 47,282. The rail terminus for the District is Waghal on the Billimora-Waghal line on the Western Railway and is 171 miles from Bombay. There are regular State Transport Bus Services throughout the year between Billimora and Ahwa via Waghal, and Ahwa and Nawapur; and during fair season between Ahwa and Nasik via Waghal.

The language spoken by the Dangis is called Dangi. It has been officially accepted that the basic element of Dangi is Marathi. Marathi and Gujarati are also spoken in the District. The inhabitants are

called Dangle which term includes Bhils, Kunbis, Warlis and Maochis. The whole District is a scheduled area.

The District contains some of the richest forests in Bombay State, which form the principal source of revenue, Danga teak being considered as one of the best varieties of Indian teak.

There is a Central Hospital at Ahwa where the District Bungalow of the Public Works Department is also situated. There are about 20 forest rest houses at various places in the District. The climate of Ahwa is pleasant throughout the year.

OFFICIALS

Collector and District Magistrate, B. G. Deshmukh, I.A.S.

District Superintendent of Police, H. C. Singh, I.P.S.

EAST KHANDESH DISTRICT

Headquarters : Jalgaon.

Tahsils : Chalisgaon, Amalner, Parola, Chopda, Krandol, Pachora, Jamner, Jalgaon, Yaval, Baver, Bhusawal.

Mahals : Edilabad, Bhadgaon.

East Khandesh, with Jalgaon as capital, is one of the northern-most Districts in Bombay State. It is bounded on the north by the Satpura Mountains and Madhya Pradesh State, on the east by Nimar and Buldana Districts, on the south by Aurangabad District, and on the west by Nasik and West Khandesh Districts.

The area of the District is 4,467 sq. miles and the population according to 1951 census 1,471,351. The main population of the District is composed of Levas and Marathas, with a good percentage of Bhils, Vanjaris and other hill tribes. Levas, who are supposed to be the descendants of Lahu, the son of Rama, are said to have migrated to the District in the 11th century. Their language is a peculiar mixture of Gujarati, Marathi and Hindi and is called Ahirani. The District has very rich black soil, specially in the trans-Tapti Talukas, and is among the Districts which yield the highest revenue.

AGRICULTURE

The most important crops are cotton, groundnuts, jawar, bajri, gram, millet, linseed and sesamum. The most important garden crops are chillies, coriander, melons, watermelons, betel leaf, bananas, muscambis and antra. North India is a lucrative export market

for bananas for the sale of which eleven Co-operative Fruit Sale Societies have been established in the District. The bananas are now marketed by the State Co-operative Marketing Board in Delhi.

Cotton and groundnut are even more important. The cotton is classed as 197-3, better known as Vir Nar, which new variety replaced the old variety Jarla in 1952. It is a cross breed of Verrum and N. B. Cotton. Vir Nar is finer than Broach and fetches a higher price. It gives 4 per cent more ginning. This cotton is now compulsorily sown in districts of East Khandesh, West Khandesh and Nasik. Government have a special agricultural farm at Jalgaon, for research in cotton breeding for improving the staple and ginning percentage. Fall in foodgrain prices and reduced acreage under groundnut have led to an increase in acreage under cotton.

There has been a sharp fall in acreage under groundnut owing to unfavourable weather conditions during successive years. There is a large export trade in groundnut oil and hydrogenated oil or vanaspathi.

COMMUNICATIONS

The Central Railway is the main line of communication and between its various lines traverses the whole length and most of the breadth of the District.

Jalgaon is the biggest town and District headquarters, a great trade centre, and also an educational centre. The town is 37 miles from Ajanta Caves and a regular State Transport

bus traffic exists from Jalgaon to Ajanta. The Central Railway has constructed retiring rooms at Jalgaon Railway Station for the convenience of tourists visiting Ajanta Caves. Two new buildings have been added to the Travellers' Bungalow two furlongs from the railway station. Amalner is the biggest cotton centre in the District.

The rainfall (mean annual is 28.27 inches) is usually both general and regular, which fact in itself discourages irrigation.

INDUSTRIES

The main industry is based on agriculture. There are about 40 oil mills in the District, besides several bullock driven presses. Two vegetable factories employ 1,000 workers. There is a silk mill in the District. There is also a factory, which manufactures crackers and fireworks, employing 100 workers during season.

There are in the whole District four spinning and weaving factories, about 100 cotton ginning and pressing works, about ten dyeing factories, three big railway workshops (at Bhusewal) all employing more than 20,000 people.

OFFICIALS

Collector and District Magistrate, N. G. Sawadkar, I.A.S.

District and Sessions Judge, D. G. Palekar.

KAIRA DISTRICT

Headquarters : Kaira (Revenue), Nadiad (Judicial).

Talukas and Mahals : Matar, Mehmedabad, Nadiad, Kapaevan, Anand, Borvad, Thasra, Balasinoor, Cambay, Petlad.

Kaira District lies between North Latitude 23°16' and 23°7' and East Longitude 72°30' and 73°25'. It is bounded on the north by the Ahmedabad and Sabarkantha Districts, on the south by the Baroda District, on the east by the Mahi River and Panch Mahals District, on the west by the Ahmedabad District and the Bay of Cambay. The former princely States of Cambay, Balasinoor, Ghodasar and part of Baroda have merged in this District so that its limits now extend upto the Panch Mahals and the Bay of Cambay. The population of the District according to the 1961 census is 1,612,636 ; area, 2,864 square miles. The language spoken is Gujarati.

Nadiad is the largest town in the District and the seat of the District and Sessions Judges' Courts, the District Local Board, Sales Tax and Income-Tax Departments. The revenue headquarters, however, is Kaira, where also the head post office and the District and Civil hospital and police lines are located. There is a network of State bus services in the District.

Petlad is another industrial town. Cambay is the only port in the District.

Tobacco which is suitable for the manufacture of cigarettes is grown in Kaira District while at Sevalla in the Thasra Taluka the Associated Cement Co., Ltd. has a cement factory.

The Government of India have opened a tobacco research institute at Anand.

Nadiad is also the headquarters of the State Transport for Ahmedabad, Kaira and Panch Mahals.

KOLABA DISTRICT

Headquarters : Alibag.

Talukas and Mahals : Alibag, Pen, Panvel, Karjat, Roha, Mangaon, Mahad, Khalapur, Uran, Poladpur, Murud, Shrivardhan, Mhasla and Sudhagad.

Kolaba District in the Konkan area of Bombay State lies between North Latitude 17°52' and 19°3' and East Longitude 73°7' and 73°42'. On the north it is bounded by Thana District; on the east by the Sahyadri Hills and Poona and Satara North Districts; on the south by Ratnagiri; and on the west by the Arabian Sea.

The total area of the District is 2,712 sq. miles, the population (based on 1951 census) 909,083.

Kolaba is a rugged belt of country cut across by numerous creeks from 15 to 30 miles broad stretching from the south of Thana and Bombay Harbour to the foot of the Mahabaleshwar hills, 75 miles south-east.

Notable places in the District are Balgarh near Mahad, once the capital of the great Shivaji and Kanakeshwara near Alibag, which is fast growing into a holiday resort as it is a hill 1,100 feet above sea-level and gives a complete view of Bombay. Matheran is another well-known hill station. Elephanta near Bombay is also in this District. Alibag has a magnetic observatory which is devoted to research in magnetic and electric currents which circulate in the interior of the earth.

The historical sea-fort Kolaba, at Alibag, which was the naval capital of Shivaji, has recently been taken over by the Archaeological Department of the Government of India. The Hingulja hill near Revedenda, about nine miles from Alibag, is growing into a holiday resort.

AGRICULTURE, POWER

On the flat lands of the District rice is grown, and the sea-front is fringed by a belt of coconut and arecanut palms. There is large-scale plantation of mango grafts and the produce is exported to Bombay. Lorry loads of melons from Panvel are also sent to Bombay. The teak forests are very valuable and there is a considerable fishing industry. Salt is also produced in large quantities in Pen, Panvel talukas and Uran petas. Nachni, Vari, Udidi and Val are varieties of crops which agriculturists produce at their second crop. Tonilies are produced in large quantities and are taken to Bombay.

The District has three Power Houses : The Tata Power Co.'s Power House at Bhira (Patans), the Tata Hydro-Electric Power Supply Co.'s at Khopoli and the Andara Valley Power Supply Co.'s at Bhivpuri.

The District is served by the Central Railway which passes through the Karjat Taluka. In addition to steamer ferry there is direct steamer communication between Bombay and the coastal ports during the fair season. The State Transport Motor bus services run through the district.

The chief articles of export are rice, salt, fire-wood, grass, timber, vegetables, fruit and dried fish. The imports consist of teak, grain,

piecegoods, oil, potatoes and sugar. At Khopoli a fish centre has been instituted where various kinds of fish are grown.

Uran and Pen are big salt-producing centres. Panvel contains a large ayurvedic pharmacy, the Shri Dhootapapeeshwar Panv Ltd.; Mora in Uran Mahal has a big tile factory which manufactures tiles worth two lakhs a year.

OFFICIALS

Collector and District Magistrate, R. V. Deshmukh.

District and Sessions Judge, M. S. Apte.

District Superintendent of Police, M. S. Kasbekar, I.P.S.

MATHERAN (HILL STATION)

Matheran is a hill station and sanitarium, about three hours' journey from Bombay and Poona. Visitors are conveyed up the hill from Neral (Central Rly.) by the Matheran Steam Tramway and Ra Motors.* The town is about 2,500 feet above sea-level, and is a favourite hot weather resort. The maximum and minimum temperatures range between 65 and 80 ordinarily and the average rainfall is 200 inches. The place has an agreeable climate.

Among the amenities of Matheran are several good hotels, a well laid out public park and garden, bandstand, two children's play grounds, electric and telephone services, and several cool and shady picnic places. During the season the band plays almost daily. The hill is a favourite place for honeymoons. There are the cosmopolitan Matheran Club and the Parsi Gymkhana in Matheran, with tennis courts. There are also sanitariums for Parsis, Hindus and small Khojas available for convalescents.

The hill offers excellent opportunities for shikar and a good shot is certain to carry his trophy of spotted skin, even within a short stay.

KOLHAPUR DISTRICT

Headquarters : Kolhapur.

Talukas and Mahals : Karwar, Panhala, Shahuwadi, Radhanagari, Bhudargad, Hatkanangle, Gadhingal, Kagal, Shirol, Bavada, Ajara, Chandgad.

The old Kolhapur State in the Deccan was integrated completely with Bombay State on August 1, 1949, and was transformed into a District as in the case of some of the other States merged into Bombay. Kolhapur District as it is now called lies between 17° 10' 48' and 18° 50' 20" North Latitude; and 74° 44' 11" and 75° 45' 16" East Longitude. The District is bounded on the north by the river Warna, on the north-east by the river Krishna, on the east and south by the District of Belgaum, and on the west by the Sahyadri Mountains, which divide it from the Ratnagiri District on the south-west and the west. The undulating country, in which the District is situated, is about 2,000 feet above sea-level in proximity to the eastern slope of the Sahyadris which renders the greater part of the District free from famine. The six large rivers of the District, namely, the Krishna, the Panchaganga, the Warna, the Dudhaganga, the Vedganga and Hiranyakeshi, with their several tributaries flow through and drain the District, facilitating extensive irrigation of lands in several parts of the District. The hills are the main feature of the District. They include the main range of the Sahyadris running north to south for about 100 miles and form the

western boundary of the District. They contain some of the finest and most abundant supplies of bauxite in the world situated at places, where an unlimited and very profitable exploitation with the aid of cheap hydro-electric power is a practical proposition.

The total area of the District is 3,188 square miles and the population according to 1951 census is 1,308,060. The language spoken is mostly Marathi, though Kannada is also spoken in a few parts. Kolhapur city, the headquarters, is a great trading centre for jaggers.

The Kolhapur-Miraj railway line* runs from Kolhapur to Miraj and is connected with the Southern Railway line running between Poona and Bangalore. The District is well served by roads and the Poona-Bangalore, the Kolhapur-Ratnagiri, the Kolhapur-Miraj roads in the District are all used for passenger traffic as well as for transport of goods.

The chief agricultural products are jawar, rice, cotton, nagli, bajra, wheat, tobacco, sugarcane and ground-nut.

Besides 3 cotton mills, there are ginning and pressing factories. There are also ginning and powdering mills, groundnut crushing and oil mills, a sugar mill, cinema-film producing companies and soap factories and repair workshops. In one of these workshops, motor gas plants are manufactured.

* Part of Central Railway.

‡ Proprietary concern.

KUTCH DISTRICT

Headquarters: Bhuj.

Talukas or Mahals: Bhuj, Mandvi, Mundra, Anjar, Rapar, Bhachau, Nakhtrana, Lakhpat, Abdasa, Khawda and Khadir.

Kutch was merged into Bombay State after the reorganisation of States and it now forms a separate district known as Kutch District.

Number of villages: 988. **Number of towns:** 10.

The District has a land area of 16,724 sq. miles. including 8,000 sq. miles of Rann. The population is 567,606 (1951 census).

The District is bounded on the north and the north-west by Sind (Pakistan); on the east by Banaskantha District, Mehsana District and the northern part of Zalawad District; on the south by Madhya Saurashtra District, Zalawad District and the Gulf of Kutch; and on the west and south-west by the Arabian Sea.

Agriculture: There is a fair proportion of good cultivable land in Kutch, the principal crops being bajra, jawar, wheat, barley, cotton and pulses. The cultivation of ground-nut is also increasing day by day. There were 36 irrigation dams and canal works constructed before the commencement of the First Five Year Plan. These reservoirs had the capacity to irrigate 22,000 acres of one foot delta crops on average storage and 46,000 acres at the tanks filling to full capacity.

Four medium-sized and twenty-two minor irrigation dam and canal works were under construction during the First Five Year Plan period. Most of them are now nearing completion and irrigation from some of them has already been started. Capacity of these works is to irrigate 42,000 acres of one foot delta crops on average storage and 85,000 acres at their filling to full capacity and on full development of irrigation. (These figures include the Rapar-Khokhra spillover works of the First Five Year Plan.)

Total capacity of the irrigation tanks will reach 64,000 acres of one foot delta crops on average storage and 1,31,000 acres at tanks filling to full capacity. The maximum production of food grains will thereby increase by 21,000 tons in average years and 40,000 tons in good years. There will be an increase in fodder crops by 20,000 tons or 32,000 tons respectively on an average and a good year of rainfall and incidental development of irrigation.

Construction on some of the Second Five Year Plan works has already been started. There are three medium and 27 minor works in the plan. Besides these there are also hundred miles of canal extension works. Capacity of irrigation by these reservoirs will increase by 27,000 acres on an average and 55,000 acres in good years.

Roads: Before the beginning of the First Five Year Plan, the total road mileage in Kutch was 286 of the Water Bound Macadam Type. In the First Five Year Plan, a total amount of Rs. 40-60 lakhs was spent on roads and the road mileage was as follows: 42 miles black-topped, 211 miles water bound macadam, 350 miles murrum surfaced.

The present total road mileage in Kutch is 699 miles comprising 71 miles black-topped, 211 miles water bound macadam and 407 miles murrum surfaced.

The above mileage does not include the roads constructed by and in charge of the District Local Board, Community Project Development

Schemes, National Extension Service, Kandla Port Organisation etc. which may increase the total mileage by about 100 miles.

At the end of the Second Five Year Plan the total road mileage will be 1,115 miles comprising 89 miles black-topped, 193 miles water bound macadam and 833 miles murrum surfaced.

During the Second Five Year Plan, a sum of Rs. 78.26 lakhs is proposed to be spent on the roads other than National Highways in Kutch.

As regards the Kandla Ahmedabad National Highway, the length passing from Kutch will be 62 miles of which a length of 18 miles and 3 furlongs from Kandla side is ready with bridges. The work on the remaining portion of the National Highway is in progress in different stages. In all an amount of Rs. 95.62 lakhs is to be spent during the Second Five Year Plan on the Kandla Ahmedabad National Highway passing through Kutch.

The District is rich in gypsum, clays and limestone, and has large deposits of lignite, alum, marble and coalse.

The main occupations of the people apart from agriculture and cattle rearing are embroidery and silver work, which are well-known for their beauty.

Kutchis are an enterprising and sea-faring people. Over six lakhs of Kutchis are distributed in principal cities of India and over 10,000 are abroad.

The currency of the District which in the past was reckoned in Koris was demonetised on April 26, 1949 when Indian currency was introduced.

The main items of export are salt, cotton, wool, castor seeds, bones, hides, skins and fish. The main items of import are foodgrains, oil seeds, cloth, condiments, etc.

The land revenue system has been changed from crop sharing to ad hoc Vigbati, thus providing a rational basis for Government revenue. The question of the abolition of the Jagirdar system is under the consideration of the Government of India.

New weights and measures under the Bombay Weights and Measures Act, 1932 were introduced in October 1950.

Education: Efforts are being made for the expansion of education in the District. There are 14 High Schools, 13 middle schools, 462 primary schools of which 43 are basic schools, and about 150 unrecognised schools. Besides, there are about 250 literary centres (Gyan Shalas) in very small villages run by the District Local Board. There are two Gram High Schools. There are also an Art School, a Basic Training College for primary teachers, a school for the blind and an agriculture school. There are about 146 adult education centres run by District Local Board, National Service Extension Blocks, Backward Class Department and the Education Department, Kutch. A multi-purpose high school at Bhuj with commercial and technical bias was expected to start in 1958. There is a degree college both for Science and Arts. Primary and secondary education is free in Government schools. There are nine nursery institutions. There are also 23 libraries of which nine are grants-in-aid.

There is one Senior Division N.C.C. Troop along with six Junior Division Troops. There is also one Junior Division N.C.C. Girls Troop.

Health: Free medical relief is available in Kutch. There are 10 hospitals, 22 dispensaries, 6 maternity homes, one T.B. Sanatorium, one T.B. Clinic, one mental hospital and one eye hospital. There are 5 mobile dispensaries which are under the supervision of the Kutch Medical Department and 1 mobile dispensary under the supervision of the Community Project Department at Rapar. All are run by the Government. There are 4 subsidised medical practitioners in rural areas. A T.B. Clinic is run by a private Association at Maska near Mandvi. There are 26 Hospitals and dispensaries under the supervision of the District Local Board. There are also 4 private hospitals, 16 dispensaries, 2 Railway dispensaries and 2 Port dispensaries. A Public Health Department has been opened. A provision of Rs. 10 lakhs has been accepted for public health activities in the District. The scheme consists of anti-malaria measures, distribution of multi-vitamin tablets, opening of milk and fruit centres for children, publicity and propaganda.

Transport: The chief means of communication is by sea. Goods are carried by steamer, country craft and rail, the chief import and export centres being Mandvi, Gandhidham and Kandla. The District has a modern port at Kandla with a natural harbour. The Government of India have decided to develop Kandla, as a major port and the minor ports of Manvi, Mundra, Jakhau and Koteswar. The metro gauge railway between Kandla and Deesa was declared open by President Dr. Rajendra Prasad in October 1952, thus linking Kutch with the hinterland of North India and Rajasthan. A new township of Gandhidham has been established near Kandla to resettle the displaced persons from West Pakistan. It has a population of about 30,000.

330 villages and towns are served by the Kutch State Road Transport Corporation on 57 different routes covering a route mileage of 2,383 miles.

Banking: There are branches of the following banks in the District: State Bank of India at Kutch-Mandvi, Bhuj and Gandhidham. Bank of India Ltd. at Bhum and Gandhidham. Punjab National Bank Ltd. at Kutch-Mandvi. Central Bank of India Ltd. at Anjar, Gandhidham Co-operative Bank at Gandhidham, Saurashtra State Co-operative Bank Ltd. at Bhuj, Nahiya and Bhachau, Saurashtra Land Mortgage Co-operative Bank Ltd. at Bhuj.

NAGPUR DISTRICT

Headquarters : Nagpur.

Talukas : Nagpur, Ramtek, Katol, Saoner, Umrer.

Nagpur District lies between North Latitude 20° 35' and 21° 44' and East Longitude, 78° 15' and 79° 40'.

It is bounded on the north by Chhindwara District, on the east by Bhandara District, on the south and south-east by Chanda District and on the south-west by Wardha District. The area of the District is 3,834 sq. miles and the population 1,234,556. The language spoken is Marathi.

PHYSICAL FEATURES

The greater part of the Nagpur District is an undulating plain, but it is traversed by low hill ranges. The hills attain no great altitude, the highest peaks not exceeding 2,000 feet, but vary greatly in appearance, being in places extremely picturesque and clothed with forest, while elsewhere they are covered by loose stones and brushwood, or are wholly bare and arid. The Wardha and Wainanga rivers flow along part of the western and eastern borders respectively, and the drainage of the District is divided between them. The centre is drained by the Pench and Kanhan, which flowing south through the Satpura Hills, unite just above Kamptee where they are also joined by the Kolar. The richest part of the District is the western half of the Katol Tehsil. It possesses a soil profusely fertile and teems with the richest garden cultivation. From Pilsapur Hills in the Katol Tehsil the plains extend to the eastern border. Its surface is scarcely ever level, but it is closely cultivated, abounds in mango groves and trees of all sorts, and towards the east is studded with small tanks which form a feature of the landscape. The elevation of the plain country is from 900 to 1,000 feet above sea-level.

The forests are mainly situated in a large block on the Satpura Hills to the north-east, while isolated patches are dotted on the hills, extending along the south-western border. The forest growth varies with the nature of the soil, teak on good well-drained slopes, salai on the steep hillsides and ridges, and satinwood on the sandy levels. In the open country mango, tamarind and bastard date-palms are common.

NAGPUR MUNICIPAL CORPORATION

Mayor : Madangopal Agarwal.

Deputy Mayor : Appaji Domaji Punje.

Members

Bhalchandra Anand Rao Udhoji (Ward No. 1), Govind Gopal Bhamburkar (Ward No. 2), Gayanarayan Indranarayan Trivedi (Ward No. 3), Rammurthy Shyamdayal Mishra (Ward No. 4), Narayan Tanbaji Murkute (Ward No. 5), Vitthal Supaji Nagarare (Ward No. 6), Kisanlal Narayan (Ward No. 7), Akant Piraji Matey (Ward No. 8), Rajkumar Rajaram Laxmanrao Bhonsale (Ward No. 9), Vasant Ramji Dhawale (Ward No. 10), Onkar Vitthalrao Deshmukh (Ward No. 11), Balwantrao Ganpatrao Dhole (Ward No. 12), Pandurang Tukaram Kadoo (Ward No. 13), Devidas Wasudeo Duragkar (Ward No. 14), Motiram Budhoo Panchbhaj (Ward No. 15), Daulat Patel Chhotelal Yadav (Ward No. 16), Gayadin Ramdin (Ward No. 17), Tulsiiram Raghoba Nakshane (Ward No. 18), Tukaram Rajaram Joshi (Ward No. 19), Harichandra Kisan Pawanikar (Ward No. 20), Mahadeo Tanbaji Pinjarkar (Ward No. 21), Laxman Somaji Barbate (Ward No. 22), Govindrao Narayanji Ghavaghawe (Ward No. 23), Mahadeo Mango Kumbhare (Ward No. 24), Mahadeo Kondaji Patharabe (Ward No. 25), Dinanath Pralhad Dhapulkar (Ward No. 26), Dhondoba Daashrath Hedao (Ward No. 27), Mohammad Yakub Haji Khan Mohammad (Ward No. 28), Junes Alam Mohammad Zahoor (Ward No. 29), Wasudeo Saldu Dongre (Ward No. 30), Dewaji Waroo Bhagat (Ward No. 31), Ahamed-khan Lalkhan (Ward No. 32), Jagoba Sakharam Ramteke (Ward No. 33), Rama Tukaram Rodage (Ward No. 34), Smt. Income for the year 1956-57 Rs. 1,54,44,078
Expenditure " " Rs. 1,62,01,630

Nagpur University (1956-57)

Year of Foundation : 1923.

Chancellor, Sri Prakasa, Governor of Bombay.
Vice-Chancellor, Lt.-Col. K. T. Mangalmurti, I.C.S. (Retd.).
Treasurer, E. M. Hajarnavis.
Registrar, Dr. M. S. Modak.

The annual rainfall averages about 45 inches, but less is received in the west than in the east of the District. Complete failure of the rain is rare, but its distribution is capricious especially towards the end of the monsoon when the fate of the harvest is in the balance.

COMMUNICATIONS, ECONOMY

Considering the advanced state of its development, the District is not very well supplied with railways, and there is scope for the construction of feeder lines to serve the more populous outlying tracts. The Central Railway line from Bombay terminates at Nagpur City. From here the South-Eastern Railway runs east to Calcutta. There are two other lines which go north-west and south-east respectively from Nagpur City. The most important trade routes are the roads leading north-west from Nagpur to Chhindwara and Katol, the eastern road to Bhandara and the north-eastern to Seoni. Then come the southern roads to Umrer and Chanda. There is some traffic along the road to Amravati. Nagpur also lies at the place where the north-south and east-west airways cross each other.

Cotton and jawar are the chief produce of the District which is also famous for its oranges. During the cold weather wagonloads of oranges are exported daily to Bombay and other parts of India.

The District is not badly off in the matter of mineral deposits. There are some manganese mines and limestone quarries in the District and a coal-mine at Kamptee.

There are five textile mills in Nagpur City, a number of oil mills, a pottery concern, glass works, saw mills, a rubber factory, a large fruit canning industry and a large number of handloom factories. Nagpur saris are in great demand in all parts of the country.

Associations and Institutions

C.P. AND BERAR BLIND RELIEF ASSOCIATION BLIND BOYS' INSTITUTE

President : K. T. Mangalmurti ; General Secretary : R. P. Sazdeo, M.A., LL.B. ; Treasurer : D. S. Panditji, B.A., LL.B.

CENTRAL EMERGENCY TRAINING INSTITUTE Nagpur.

The Institute trains people in the techniques of emergency relief operations. It has been started by the Government of India and is meant to give a trained set of people who will minister to the needs of men and women in any emergency. Nearly 250 persons nominated by the various States have already been trained. The six-week course helps the persons to learn about rescue and fire-fighting work, first-aid, home nursing, public health and welfare.

THE CHRISTIAN MEDICAL ASSOCIATION OF INDIA

Office : Christian Council Lodge, Nagpur.

Seeks to be the means of mutual help among Christian Doctors in carrying on and securing greater efficiency in their work. This is carried out through biennial general conferences, annual conferences in the Hill Stations of Kodakkanal, Lonour and the Nilgiris, and in regional conferences held from time to time in various parts of the country and also through the Association's bimonthly magazine and through the visits and counselling of its two full-time Secretaries. It has assisted in the development of the Christian Medical Colleges at Vellore and Poona, and through its Nurses Auxiliary has played a large part in the development of Nursing Education.

Its membership is open to Christian Doctors with registrable qualifications regardless of their field of service.

President : E. S. Chellappa, M.B.B.S., F.R.C.S. ; Vice-President : P. D. Sukhmandan, F.R.C.S. ; Editor : J. C. David, M.B., Ph.D.

Secretary-Treasurer : E. W. Wilder, M.D., Christian Council Lodge, Nagpur 1.

Secretary of Preventive Medicine : -Dr. Claire Thomson, M.B.C.S., L.R.C.P., D.T.M. & H.

NANDED DISTRICT

Headquarters : Nanded.

Talukas and Mahals : Deglur, Kandhar, Billoli, Nanded, Hadgaon, Bhokar (Mahal), Mukhed (Mahal), Mudhol, Kinwat, Rajura.

Area : 4,726 sq. miles ; Pop. 958,888.

Two Talukas Kinwat and Rajura are separated from the main body of the District by Yeotmal District.

A range of hills known as Bhog or Thanavari runs through the District from north-west to south-east. The most important river is the Godavari which passes through the District from west to east. Smaller rivers are the Ashna, the Siddha, the Lendi and the Manar. The commonest trees are teak, mahua, tamarind and mango. Large game is sometimes found in Hadgaon, e.g., tigers, leopards, bears and wild dogs.

The District is on the whole dry and healthy. The annual temperature varies between 100° and 60°. The average rainfall is about 35 inches.

There are tombs of Muslim saints and Nanded has the Gurudwara of the Hyderabad Sikhs where Guru Govind is buried.

About 65 per cent of the population is dependent on the land. Practically the whole District is composed of black cotton soil. The rabi crops consist of jawar, gram, wheat and oilseeds. The Kharif crop consists of bajra, linseed, cotton and maize. The staple food crop is jawar and the main cash crop cotton. The principal source of irrigation is wells. The forest area is limited.

Good basalt, granite and limestone are extensively found.

The chief exports are cotton, linseed oils, jawar and cloth, and the chief imports rice, sugar, kerosene and cotton and woollen goods.

The railway connecting Hyderabad and Manmad passes through Nanded.

OFFICIALS

Collector, Dr. M. N. Desai, I.A.S.

District Superintendent of Police, Trimbak Rao, I.P.S.

District and Sessions Judge, Syed Ka'ander Husain.

OSMANSHAHU MILLS LTD. Spindles 37,788, Looms 902 : Managed by Board of Directors, 135, Gunfoundry Road, Hyderabad Mills at Nanded.

NASIK DISTRICT

Headquarters : Nasik.

Talukas and Mahals : Kalwan, Dindori, Niphad, Yeola, Igatpuri, Nandgaon, Nasik, Sinnar, Baglan, Malegaon, Chandor, Peint, Surgana.

Nasik District is a historic place in Bombay State and the city one of the oldest in the Deccan and a place of pilgrimage. Surgana State formerly on the borders of Nasik District with an area of 134 sq. miles is now merged with Bombay State and is within the Nasik Collectorate. The District is bounded on the north by East and West Khandesh, on the east by East Khandesh and Aurangabad districts, on the south by Ahmednagar, and on the west by Thana and Surat Districts. The area of the District is 6,035 sq. miles and the population according to the 1951 census 1,429,916. The language spoken is Marathi.

With the exception of a few villages in the west the whole District lies on a tableland at an elevation of 1,300 to 2,100 feet above sea-level.

Nasik Town lies on the Bombay-Nagpur branch of the Central Railway and is 117 miles from Bombay. Barring a few, all the Taluk centres are connected by the State Transport Bus Service. There is also regular bus service from Nasik to Ahmednagar and Poona.

The main food crops are rice, wheat and bajra. Nagli is used as food by the poor.

OFFICIALS

Collector and District Magistrate, A. W. Khan, I.A.S.

District and Sessions Judge, L. M. Paranjpe

District Superintendent of Police, S. G. Gokhale, I.P.S.

OSMANABAD DISTRICT

Headquarters : Osmanabad.

Talukas and Mahals : Latur, Tuljapur, Osmanabad, Kalam, Omerga, Awasa, Bloom (Mahal), Parendah, Ahmadpur, Nilanga, Ulgir.

Area : 5,484 sq. miles ; **Pop. :** 1,210,041.

The District is divided into two parts by a range of hills which runs from the north-west to roughly the south-east : a plateau to the north-east and east and lowlands to the south, west and south-west.

The most important river is the Manjra which runs along the northern boundary part of the way and then cuts across the District in a south-easterly direction. Smaller rivers are the Sina, the Kheri, the Tirna, and the Borna. There is not much forest in the District. The trees consist of babul, nim and mango. There is not much big game. The climate is not uniform. Generally speaking the climate of the plateau is pleasanter than that of the plain. The average annual rainfall is about 32 inches.

Six places of archaeological interest are the fort of Naldrug, the Jumma Masjid in Awasa Taluka, the caves around the town of Osmanabad, the two caves at Hasangon, the old fortress at Parendah. Tuljapur is a place of Hindu pilgrimage.

The soil is largely black cotton interspersed with red, white or sandy soils. The black soil produces jawar, gram, wheat and cotton. In the musab soils are grown yellow jawar, bajra and pulses. The kharat soils are used for garden produce.

The staple food grain is jawar, wheat, rice and bajra are next in importance. Cotton is grown everywhere, while sugarcane is sometimes grown with well irrigation. Wells are the main source of irrigation.

There are no minerals except granite and basaltic rock. Neither is there any important industry. The chief exports are jawar, other cereals and pulses, cotton, oilseeds, cattle, sheep, tobacco and leather. The principal imports are salt, sugar, kerosene and cloth.

A branch line of the Central Railway connects Latur with Kurud-wadi.

OFFICIALS

Collector, K. J. Saye, I.A.S.

District Superintendent of Police, M. A. Kamble, I.P.S.

District and Sessions Judge, Maruti Rao Joshi.

PANCH MAHALS DISTRICT

Headquarters : Godhra.

Talukas and Mahals : Godhra, Dohad, Kalol, Halol, Jhalod, Deogadh-Baria, Limkheda, Santrampur, Lunavada, Shehera, Jambughoda.

The Panch Mahals District lies between 22°15' and 23°11' North Latitude and 73°22' and 74°20' East Longitude. It is divided into three Sub-Divisions namely, Godhra Sub-Division comprising Godhra, Kalol, Halol and Jambughoda talukas, Lunavada Sub-Division comprising Lunavada, Shehera and Santrampur talukas, and Dohad-Deogadh-Baria Sub-Division comprising Deogadh-Baria, Limkheda, Dohad and Jhalod talukas with headquarters of the District Deputy Collectors at Godhra, Lunavada and Deogadh-Baria.

The area of the District after the merger is 3,500 sq. miles and the population according to 1951 census is 1,148,432. The language spoken is Gujarati.

Agricultural produce includes cereals of all sorts, pulses, oil-seeds including ground-nuts, Til and Mahua seeds, Kanji seeds, cotton and tobacco. Larger areas are now being covered into fruit growing orchards and vegetation. Average under foodgrains : about 950,000, under pulses : about 143,000 ; Groundnuts : about 110,200.

The District has a forest area (inclusive of that of the merged States) of 1,10,085 sq. miles which produces timber such as country teak-wood, Mahua, Sadad, Kher and Dhavda. Timber, Mhowa flowers and timu leaves for bidi-manufacture and hay fodder are a principal produce of the forests. Other minor produce is bamboos, gum, lac, castor-leaves, Khakhra-leaves, Rochea grass used for extracting scents, ghat-bor, Kananj-seed, Anila, honey and wax. The Panch Mahals District exports large quantities of timber, bamboos, firewood, castings, charcoal and hay to various Districts in Bombay State. It also exports ground-nut oil to the Punjab and parts of Uttar Pradesh.

The south-west portion of the District is a level tract of rich soil (except for the Pavagadh Hill) while the northern portion though it contains some fertile valleys is generally rugged, undulating and barren with but little cultivation. Large tracts are however being reclaimed through soil conservation schemes, bunding process and irrigation projects.

The District contains the famous ruins of Champaner which was a stronghold of Rajput kings belonging to Raoi and the Taru dynasty. Pavagadh, a 2,500 feet high hill, is considered by Hindus to be a place of special interest and holiness. The hill itself contains the famous ruins of the ancient possessions of the Rajput king Patal Raoi. Then there are the hot springs believed to have sulphur deposits, the medical properties of which are not yet fully explored, situated at Tuwa, a station about 7 miles from Godhra on the Godhra-Anand (broad-gauge) branch line of the Western Railway. The Bombay Government has a scheme for the development of these springs.

COMMUNICATIONS

The railways and buses are the main means of communication. There is the Western Rly. main line from Bombay to Dehra Dun which runs through the Panch Mahals via Godhra. Then there is the Anand-Godhra Branch line (broad-gauge) and the Godhra-Lunavada section of the Western Railway (narrow-gauge), the narrow-gauge section of Champaner Road-Pani Mines running from Champaner Road Station of the broad-gauge main line terminating at Pani Mines via Halol and Shivrappur, and the Piprod-Deogadh-Baria section of the

Western Railway. The last three are narrow-gauge sections worked by the Western Rly. administration. Passenger bus services of the Bombay State Road Transport Corporation, Bombay, are operating between Godhra-Dohad, Godhra-Shivrappur-Bodeli-Chhota-Udepur, Dohad-Jhalod, Dohad-Ahrajpur (Madhya Pradesh), Godhra-Shehera-Lunavada, Godhra-Pandu-ca-Kalol and Sant Road-Santrampur-Kadana.

IRRIGATION

Pata-Dungri Dam harnessing the waters of Khan River is located 11 miles to the south of Dohad. The Dam is 53 feet in height and 600 ft. in length. Its storage capacity is 1,450 million cubic feet of water. The dam provides irrigation facilities to 12,000 acres of land.

The Suki-dam is situated 11 miles north of Dohad. The dam is 66 feet high and 200 feet long. Its storage capacity is 142 million C. ft. of water and it irrigates 5000 acres.

The third is the Titodi Dam situated two miles south of Jhalod town. It is 50 ft. in height and 500 ft. in length. Its storage capacity is 125 million C. ft. of water and it irrigates 1,500 acres of land.

The fourth is Tanachhia Irrigation project. It is located 15 miles away from Dohad. The dam is 60 ft. high and it irrigates 250 acres of land. The fifth irrigation project is Karad Dam which is located in Deogadh-Baria Taluka. The dam is 50 ft. in height and 2,400 ft. in length. Its storage capacity is 1,250 million C. ft. and it irrigates 15,200 acres of land. All these irrigation projects have been completed.

Freelandgunj in the Dohad Taluka, one mile away from Dohad town, is the headquarters of the Works Superintendent, Divisional Electrical Engineer, Divisional Medical Officer and other officials of the Western Railway. It contains the Locomotive Shops of the Western Rly.

The District contains rich mineral deposits, such as manganese ore and galena ore. Big mines of manganese ore are worked at Shivrappur, Baman Kuwa and Pani Mines which have developed into a mining colony.

The dry bed of the Panam River near Sant Road Station on the Godhra-Ratlam line and that of the Meshri River at Godhra and Goma River at Kalol contain quality sand used for preparing glassware and generally for building construction. There is a glass and Chinaware Factory at Sant Road in Godhra Taluka. Stone quarries exist at Timba, a village in Godhra Taluka. Gravel used for reinforced concrete works comes from the quarry which is worked at Timba Road Station on the Godhra-Anand Rly. line.

PARBHANI DISTRICT

Headquarters : Parbhani.

Talukas : Parbhani, Gangakhed, Pathri, Jintur, Hingoli, Basmat, Kalamnuri, Partur.

Area : 4,855 sq. miles ; Pop. : 1,010,864.

Part of the District lies on the plateau south of the Sahyadri range and part on the plains. The plateau slopes towards the south and terminates in the valley of the Dudna. The two chief hill ranges are the Sahyadri-parvat and the Halaghat. The former runs through the north while the latter is in the south. The important rivers are the Godavari, Penganga, the Purna and the Dudna. The trees are mostly babul, khair, nim, mango, tamarind and mahua. Tigers, wolves, hyenas are found in the jungles. Sambar and the spotted deer are not uncommon.

The climate is healthy from February to May but it is feverish during the monsoon and the cold weather. The annual range of temperature is from 105° to 60°. The average annual rainfall is about 35 inches.

Structures of note in the District are the temple of Nagnath at Aundh, the Jain temple of Parsnath near Jintur, the temple near Bamu and the shrine of Ramzan Shah.

The soil is partly black cotton and partly masab and kharab. On the black soil are grown white jawar, wheat, gram, tuar, while on the kharab soils are grown jawar, bajra, indigo, sesamum, oilseed and pulses. The kharab soils also bear garden crops. The staple food crops are jawar, wheat and bajra. Cotton is grown throughout the District. About one-twentieth of the land is under forest. There are no minerals of economic value. Basalt and granite are available everywhere for building and road metalling. There are no important industries.

The principal exports are jawar, cotton, oilseeds, tobacco and hides. The chief imports are salt, sugar, kerosene and textiles.

OFFICIALS

Collector, B. S. Dhavle, I.A.S.

District Superintendent of Police, Jagjit Singh.

District and Sessions Judge, Rai Suraj Chand.

POONA DISTRICT

Headquarters : Poona.

Talukas or Mahals : Ambegaon, Baramati (Bhimtadi), Dhond, Haveli, Indapur, Junnar, Khed, Mawal, Mulshi, Poona City, Parandhar, Sirur, Bhore, Velhe.

Poona District lies between North Latitude $17^{\circ} 54'$ and $19^{\circ} 23'$ and East Longitude $73^{\circ} 24'$ and $75^{\circ} 13'$. It is bounded on the north by the Districts of Thana and Ahmednagar, on the south by Satara North, Sholapur and the former Phaltan State, on the east by the Districts of Ahmednagar and Sholapur, and on the west by the Sahyadri Hills. In March 1948 a large part of the Bhore State with a population of about 120,000 was added to the Poona District consequent upon the merger of that State with Bombay State. The premerger area of the District was 5,569 sq. miles and the population 1,359,408. The population according to 1951 census is 1,980,976, and the area 6,025 sq. miles. The language spoken is Marathi.

The city proper extends along the Mutha river for about 18 miles inland; its length is about 2 miles from east to west and its breadth about 18 miles, the total area being about 25 square miles.

Towards the west the country is undulating and intersected by numerous spurs of the Western Ghats, which break off in a south-easterly direction, becoming lower as they pass eastwards, and in the end sinking to the general level of the plain. Many streams rise in the Western Ghats and flow eastwards until they join the Bhima river, which passes through the District from north-west to south-east. The main tributaries are Vel, Ghod, Bhama, Indrayani, Mula and Nira. The rainfall varies considerably in different parts of the District. In the western parts it is heavy and regular, in the central belt moderate, and in the east very irregular. The main crops are paddy and jawar. But the District is a deficit area in the matter of food grain. One of the products of which the District has an exportable surplus is jaggery produced from sugarcane.

The District is well served by road and railway. The Central Railway traverses the District from west to east, and this section is joined at Dhond by the north to south cross connection from Mahmud. The Southern Railway runs from Poona southwards for a distance of about 50 miles in the District. The District has also communication with Nasik, Ahmednagar, Sholapur, Belgaum, Satara, and Kolaba Districts by road. The Poona-Agra Road is also one of the arterial roads of the country as a whole.

Until a few years ago the headquarters of the Bombay Government during the monsoon, the city of Poona lies at the confluence of two small rivers, the Mutha and the Mula, on the Western margin of the Deccan plateau at a height of about 1,800 ft. above sea-level. Only 30 miles separate the city from the main range of the Western Ghats and 119 miles from the State capital, Bombay. The annual exodus of Government to Poona has now been stopped, as also the monsoon meetings of the Houses of Legislature.

The city is surrounded by uplands and hills. The climate of Poona is dry during most of the year and very different from that obtaining in the coastal towns of Bombay State. On account of its elevation and dryness, Poona is cool during nights even in summer. The city is at its best during the monsoon—June to September. The city is the venue of horse racing organised by the Royal Western India Turf Club.

The importance of Poona from the military point of view is growing. It is the headquarters of the Southern Command and also of the Poona Sub-Area. The National Defence Academy is located in Khadak-Vasli. The School of Military Engineering and The Armed Forces Medical College are also in Poona. A wing of the Indian Air Force is also posted to Poona. Some of the other military establishments around Poona are: the Ordnance Depot and the Arsenal at Kirkee and the Vehicles Depot at Dehu Road. The Indian Navy Mechanical Training establishment, I.N.S. "Shivaji", is located at Lonavla, 40 miles from Poona.

Other important institutions of All-India character located in Poona are given below:

Meteorological Office : The technical headquarters of the India Meteorological Department, the Meteorological Office in Poona, is located on the Ganeshkhind Road at Shivajinagar, in a magnificent building with a conspicuous clock tower.

Central Water and Power Research Station ; National Chemical Laboratory.

OFFICIALS

Collector and District Magistrate, S. B. Kulkarni, I.A.S.
Deputy Collector, S. S. Mone, I.A.S.
District and Sessions Judge, V. A. Naik.
Deputy Superintendent of Police, C. J. V. Miranda, I.P.S.
Deputy Superintendent of Police, Poona (Rural), S. K. Chaturvedi, I.P.S.

POONA MUNICIPAL CORPORATION

A Corporation for the City of Poona was created on February 15, 1900.

The Municipal budget proposals for 1958-59 as approved by the Standing Committee shows an estimated income of Rs. 1,51,20,553

and expenditure of Rs. 1,52,57,583, having a deficit of Rs. 1,28,030. The deficit would be met from the opening balance of the new year.

It was proposed to spend Rs. 10,13,500 on Revenue New Works and Rs. 43,54,000 on loan works.

Provision of Rs. 2,000 had been made for fees to be paid to a firm of actuaries for undertaking preliminary survey before converting the Provident Fund Scheme into Pension Scheme.

Party position in the Corporation : Samiti 48, Independents 12, Nagrik Banghatana 5.

Mayor : Shirole Bhausaheb Laxmanrao.

Deputy Mayor : Agarwal Motilal Himatlal.

Members : Gunjal Namdeo Ranoji, Barne Vitthal Laxman, Galkwad Madhavrao Balwantrao, Chavan Jalram Vitthaji (Ward No. 1); Malayya Krishna Ramanath, Deshpande Dnyaneshwar Tukaram (Ward No. 2); Khan Gulam Mohomed Abdul Satarkhan, Hendr-Ganesh Raghunath, Shendge Vitthal Shankar (Ward No. 3); Mithapalli Malayya Ramayya, Kirad Sardar Munnasingsh, Patel Jamal-khan Karimkhan, Pawar Damodhar Santram (Ward No. 4); Kalyan-kar Motilal Keshav, Bapur Narayan Tukaram, Bogam Dnyanoba Ramanna (Ward No. 5); Gandhi Ramdas Vitthaladas, Shah Gokuldas Jivarambhai (Ward No. 6); Kalbhor (Chandrakar) Maruti, Telang Ramchandra Vitthal, More Balkrishna Pandharinath, Dhore Shivaji Amrut (Ward No. 7 (Part I)); Ghaisas Ganesh Trimbak, Gavandi Mohan Vishwanath, Paranjape Ramdas Sadashiv (Ward No. 8) (Part II); Nalavade Ganpat Mahadeo, Gosaavi Laxman Gopal, Jejurikar Ganesh Narahar (Ward No. 9); Kirad Rohidas Harilal, Kurumkar Shankar Balwant, Pardeshi Kaluram Udansingh, Maheshwari Mohanlal Keshachand (Ward No. 10); Pawar Narayan Ganpatrao, Agarwal Motilal Himatlal, Kadu Diganbar Shantaram, Tikone Damodar Maruti, Satav Pandurang Gopal (Ward No. 11); Bhagwat Gopal Prabhakar, Shrimati Bapat Leela Vishwanath, Hagavane Vasant Shankar (Ward No. 12); Kotwal Laxmanrao, Balurao, Sathye Narayan Bhaskar (Ward No. 13); Gogate Vasudeo Balwant, Dharra Mohan Manikchand, Shrimati Bhopatkar Sundrabai Bhaskar (Ward No. 14); Bhaye Vishwanath Narayan, Shrimati Linaye Anusayabai Shridhar, Ganjave Shamrao Vitthal, Sahasra-budhe Laxman Gopal (Ward No. 15); Shirole Bhausaheb Laxmanrao, Bhosale Jagannath Vishnu, Kale Anandrao Dattatraya, Pashankar Dayanand Kashinath, Nagarkar Pandurang Rauchandra, Gangurde Krishnarao Gangaram (Ward No. 16); Kodre Rajaram Kundalik, Kodre Sadaba Balaji, Khabhor Jayaram Sakharam (Ward No. 17); More Genu Sojana, Shelar Balwant Laxman (Ward No. 18); Padale Thakren Raghoba, Patil Vishwanath Bhausaheb, Naik Ramesh Babu Tukaram (Ward No. 19); Sasane Jaysingh Ganpat, Lomkar Bala Bhiva (Ward No. 20).

STANDING COMMITTEE

Chairman : Gogate Vasudeo Balwant.

Members : Kadu Diganbar Shantaram, Kale Anandrao Dattatraya, Jejurikar Ganesh Narahar, Telang Ramchandra Vitthal, Patel Jamal-khan Karimkhan, Paranjape Ramdas Sadashiv, Padale Thakren Raghoba, Patil Vishwanath Bhausaheb, Bogam Dnyanoba Ramanna, Sasane Jaysingh Ganpat, Sathye Narayan Bhaskar.

OFFICERS

Municipal Commissioner, S. V. Bhaye, I.A.S.
Assistant Municipal Commissioner (General), G. M. Khopkar, B.A. (Hons.), LL.B.
Assistant Municipal Commissioner (Special), S. B. Dary, B.A.

Senior Legal Assistant, Smt. S. B. Tarkunde, Advocate.
Administrative Officer, G. P. Kale, B.A., B.T., 14p. Ed.
Internal Auditor, S. K. Alekar, B.Com.

LONAVLA

This hill station is situated at the top of the Bhore Ghat incline about 2,027 feet above sea-level.

Among the lakes may be mentioned the 'Tata Sons Hydro-Electric Works Lake' at Valvan (walking distance and drive over a built road), their smaller Lake near the Railroads, and the Lonavla Municipality's Water Works on the top of the Tungarli Hill about 24 miles north of the Railway Station. Fishing is allowed both at the Bhushi and the Valvan lakes, the latter being the more suited for the purpose. A permit can be obtained locally from the Water Engineer's office at Lonavla on payment of a fee which includes the use of the Company's boat.

The town of Lonavla and its adjacent villages and suburbs are supplied with water from the Municipal Water Works at Tungarli.

There is a Municipal rest-house and Dharmashalla on the Lonavla-Bhangarwadi Road. The Railwoods are suitable for picnics and are also a camping ground for Government Officers during the hot season.

About 3½ miles from the Railway is situated the "Tiger's Leap," a promontory which commands a picturesque view of the valley below. The famous Karla Caves are situated on a hill about five miles from Lonavla, and are reached by a built road up to the foot of the hill, and visitors either walk up or are carried up by means of chairs. There is a man in charge of the Caves at the top for assisting visitors. Tongas and victorias can be hired throughout the year. From the Railway Station of Malavali, nearly three miles from Lonavla, visitors can proceed to view the Lohgad Fort (now partially demolished) on the top of a hill. The approach to it is by no means easy and visitors must arrange beforehand for chairs—slung on poles—to be sent to the Railway station from the Karla Caves hill or Karla village. This Fort was formerly used as a State prison by the Peshwas. About five miles by road from Lonavla is the Sakar Pathar Hill, a well-known shooting ground where big game may be found.

The terrace garden overlooking Tata's Valvan Lake is another attraction for visitors to Lonavla.

The following are some of the Forts and places of interest:—

Fort of Lohgad, Fort of Visapur, Fort of Rajmachi which stands on the top of the Sahyadri Range and commands a grand view of Matheran, Konkan and even part of Bombay, Duke's Nose, Tungarli Municipal Lake.

The temperature varies from 65 in the cold weather to 85 in the hottest month. The rainfall varies from 160 to 250.

One of the best naval establishments and training schools I.N.S. "Shivaji" is about four miles from Lonavla Station and visitors may contact the Commanding Officer on phone for permit to visit.

There is up-to-date telephone service.

V.P. High School and "Guru Kul" are residential schools preparing for the S.S.C. examination.

EDUCATIONAL INSTITUTIONS

UNIVERSITY OF POONA

The University of Poona was established by the Poona University Act, 1948 of the Government of Bombay passed in pursuance of its policy to create Universities in the State for different linguistic regions. The University area comprises the following 12 Marathi speaking Districts of Maharashtra in Bombay State namely, Poona, Nasik, Thana, East Khandesh, West Khandesh, Ahmednagar, Sholapur, North Satara, South Satara, Kolhapur, Ratnagiri and Kolaba.

The University is both teaching and affiliating in character. The teaching activity is confined to Post-graduate classes in the whole University area and also post-intermediate classes in the Poona area (which comprises Poona and some area in the Poona City Taluka, Mulshi Petha and the Haveli Taluka).

It has the following seven Faculties and has provision for courses for the following degrees:

Faculty of Arts: B.A., M.A., Ph.D., D.Litt., B.A. (External), M.A. (External); **Faculty of Mental, Moral and Social Sciences:** B.A., B.A. (External), M.A., M.A. (External), B.T., M.Ed., M.Com., M.Com., Ph.D., D.Litt.; **Faculty of Science:** B.Sc. (General), B.Sc. (Hons.), M.Sc., M.Sc. (Maths.), M.Sc. (Maths.) (External), Ph.D.; **Faculty of Law:** LL.B., LL.M., LL.D., Ph.D.; **Faculty of Medicine:** M.B.B.S., M.D., M.S., Ph.D., B.Sc. (Nursing), M.Sc. (Med.); **Faculty of Engineering:** B.E. (Civil, Mechanical, Electrical, Telecommunications and Metallurgy), M.E., Ph.D.; **Faculty of Agriculture:** B.Sc. (Agri.), M.Sc. (Agri.), Ph.D.; **Faculty of Ayurvedic Medicine:** B.A. M.D.S.

The University has also instituted for the benefit of employed persons and married women, the B.A. (External) and M.A. (External) degrees in the Faculties of Arts and Mental, Moral and Social Sciences and M.Sc. (Maths.) (External) in the Faculty of Science to which students can qualify by appearing for the examinations direct, without having to undergo instruction in a College or the University.

The University has also instituted a Faculty of Fine Arts and Music and the degree of Bachelor of Music, but it has not started functioning so far (end of 1957).

The following new diplomas and certificates have been instituted (1) Diploma in Oriental (Sanskritic) Learning; (2) Certificate and Lower Diploma Course in Modern Foreign Languages (French and German); (3) Diploma in Public Health; (4) Diploma in Psychological Medicine; (5) Diploma in Anaesthesia; (6) Diploma in Music.

The University has in all 30 affiliated Colleges and three recognised Research Institutions. Of them, 11 colleges and all the three recognised Institutions are in the Poona area and they are called the Constituent Colleges and the Constituent Recognised Institutions

Bhori Sanitarium.

KHANDALA

Khandala, a health resort, 78 miles from Bombay by rail and 71 by road lies in Mawal Taluka. It is situated at the top of the Bhor Ghat at an elevation of about 2,000 feet above sea-level, and has an agreeable and bracing climate all through the year. Bungalows are available for seasonal lease, and bungalows, sanitarium, hotels are all easily accessible from the railway station. The local population is about 1,500.

Among places worth a visit in and around the town are Tata Electric Supply Company's reservoir called Forbay Dam, Byranji's Point, the Duke's Nose, Tiger's Leap, all of which provide magnificent views of the surrounding country. About nine miles from Khandala are the Karla caves considered to be the oldest specimen of Buddhist caves in India. In Walvan lake which is about four miles from Khandala good mahashir fishing is available.

AYURVEDA MAHAVIDYALAYA

Poona 2

The Institute is affiliated to the Poona University for the B.A.M.A.S. (Bachelor of Ayurvedic Medicine and Surgery) course which covers a period of 4 years.

The Institution also conducts a two years' Post-Graduate course.

The attached hospital known as the Seth Tarachand Ramnath Ayurvedic Hospital has 175 beds (61 medical, 60 surgical & 54 maternity) and has a well equipped operation theatre, a Pathological Laboratory, an X-ray department and an out-patient department treating 300 patients daily. It has its own pharmacy, manufacturing both Ayurvedic and Allopathic medicines.

B. J. MEDICAL COLLEGE, POONA

The College admits every year 100 students for the M.B.B.S. Course. The total number of students at present is about 500. The clinical instruction is given in the attached Sassoon hospitals. *Principal and Professor of Anatomy*: Dr. B. M. Desai, M.S. (Bom.), F.C.P.S. (Bombay).

CAMP EDUCATION SOCIETY

(Est'd. 1890).

Poona 1.

Life members: G. P. Schoni, Hon. Secretary, Camp Education Society and Head Master, C.E.S. High School, Poona 1.

V. K. Shrotriya, Head Master, R. D. High School, Poona 2.

COLLEGE OF AGRICULTURE

Poona.

A four-year course leading to the degree of Bachelor of Science in Agriculture (M.Sc. (Agri.)) of the Poona University is given at this College. The college is also fully equipped for Post-graduate instruction leading to the degrees of M.Sc. (Agri.) and Ph.D.

Principal, I. S. S. Kumar, M.Sc. (Lond.).

COLLEGE OF ENGINEERING

Poona

Principal, G. V. Vartak, B.E. (Civil), M.I.E. (India).

CO-OPERATIVE TRAINING COLLEGE

(All India Centre)

5, B. J. Road, Post Box No. 32, Poona 1.

Principal, P. M. Chengappa, Dip. Econ., C.M.D. (Mach.), F.R.E.S. (Lond.).

DECCAN EDUCATION SOCIETY

Poona

The object of the Society is "to facilitate and cheapen education by starting, affiliating and incorporating at different places, as circumstances permit, schools and colleges under private management or by any other ways best adapted to the wants of the people." The Society has now 32 life members.

Chairman of the Council and the Governing Body:—H. O. Gharpurey, M.A., I.C.S. (Retired); *Secretary*: Dr. V. N. Dhavale, M.A., D.Phil. (Oxon.), Fergusson College, Poona.

The Society's Institutions are the following:—The Fergusson College, Poona: *Principal*—Prof. S. V. Kogekar, B.Sc. (Econ.) (Lond.); The Willington College, Sangli: *Principal*—Prof. G. L. Chandratraya, M.A., B.Sc. (Bom.), M.A. (Camb.); The Brihan Maharashtra College of Commerce, Poona: *Principal*—Prof. T. M. Joshi, M.A.; The D. L. Society's Bombay College: *Principal*—Prof. M. G. Bhate, M.A., B.Sc. (Lond.); The New English School, Tilak Road, Poona 2: *Superintendent*—Prof. P. N. Virkar, M.A., B.E., T.D. (Lond.); The New English School, Ramnagar, Poona: *Superintendent*—Prof. K. D. Nisare, M.A., B.T.; The New English School, Satara: *Superintendent*, Dr. D. N. Gokhale, B.A. (Hons.), Ph.D., B.E.; Manoj Madhavan High School, Umbargaon: *Chairman, Standing Committee*—Prof. D. D. Vadekar, M.A.; Dravid High School, Wat: *Chairman, Standing Committee*—Prof. R. S. Joag, M.A.; Ahilyadevi High School for Girls, Holkar Wadia, Poona: *Chairman, Standing Committee*—Prof. K. V. Kelkar, M.Sc.; The Navin Marathi Shala, Poona: *Chairman, Standing Committee*, Prof. S. R. Parasnis, M.A.; Justice M. G. Ranade Balak Mandir, Poona: *Chairman, Standing Committee*—Prof. S. R. Parasnis, M.A.; Technical Institute (attached to Fergusson College), Poona: *Chairman, Standing Committee*—Dr. V. A. Patwardhan, M.Sc., Ph.D.

The total number of students in the institutions of the Society exceeds 12,000.

D. E. SOCIETY'S AHILYADEVI HIGH SCHOOL FOR GIRLS

Holkar Wadia, Poona 2.

Principal, Miss Sindhu Dinkar Sawarkar.

D. E. SOCIETY'S BRIHAN MAHARASHTRA COLLEGE OF COMMERCE

Poona 4.

(Affiliated to the Poona University as a Constituent Degree College)

The Deccan Education Society, Poona, established in 1884, started this college in June 1943. It is a First grade College teaching upto M. Com. Degree examination. The Brihan Maharashtra Sugar Syndicate, Ltd., Poona, gave a munificent donation of Rupees two lakhs towards the building fund of the college. The trustees of the Sir Dorabjee Tata Trust have donated Rs. 50,000 for the construction of an Assembly Hall for the college.

Since 1952, the college has been housed in its own buildings situated on a plot of ground near the servants of India Society's Home. The buildings include the J. N. Tata Assembly Hall.

Principal: T. M. Joshi, M.A.

D. E. SOCIETY'S NAVIN MARATHI SHALA

Shaniwar Peth, Poona 2.

Superintendent—P. V. Sane, B.Sc., S.T.C.

Special features:—(i) Provision for drawing, clay-modelling, gardening, singing and sewing, (ii) reading room for children, (iii) A separate department for giving first aid to pupils.

JUSTICE M. G. RANADE BALAK MANDIR

Shaniwar Peth, Poona 2.

Superintendent, P. V. Sane, B.Sc., S.T.C.

Children admitted are between the ages of 3 and 6. Strength of the school is over 200.

FERGUSON COLLEGE

Poona

Principal—S. V. Kogekar, B.A., B.Sc. (Econ.) (Lond.)

LAW COLLEGE

Poona

Principal:—Ganapati Vishnu Pandit, M.A., LL.M.

MAHARASHTRA EDUCATION SOCIETY'S COLLEGE OF ARTS AND SCIENCES

Poona 4.

Prof. M. N. Bhat, M.A., L.T. is the principal of the college and Prof. N. S. Jamadagni, M.A., B.T. is the vice-principal.

MAHILASHRAM HIGH SCHOOL

Hingne Budruk, Poona 4.

The Mahilashram High School is now a boarding school. There are nearly 350 girls in the high school, who are being prepared for the S.S.C. examination of the S.S.C.K. Board. A special tailoring class recognised by the Board of Technical Education, Government of Bombay, is conducted for the pupils.

THE NATIONAL MODEL SCHOOLAga Khan Palace
Poona No. 6

(Residential School)

Co-educational residential school, prepares boys and girls for the S.S.C. Examination, Bombay. Special attention given to boys who desire to make army as their career. Fees: Rs. 1,300 per year.

NEW ENGLISH SCHOOL

Tilak Road, Poona 2.

Instruction in producing hand-made paper, A.C.C., vocational guidance centre, scouting, poor boys' shop, educational experiments and projects are some of the many salient features of the school. The strength of the school, at present, is about 1,400.

The school has a Planetarium, the only one of its kind in Bombay State.

Superintendent.—Prof. P. N. Virkar, M.A., B.T., T.D. (Lond.).

NOWROOJEE WADIA COLLEGE

Poona 1.

Established in 1932, teaches degree courses in Arts and Science faculties. Housed in well equipped modern buildings on its own premises, has an extensive playground, a gymkhana pavilion, a students' dining hall, an assembly hall and a hostel for 250 men students and 50 lady students.

Principal.—N. G. Surti, M.A.

PROGRESSIVE EDUCATION SOCIETY

Shivajinagar, Poona 5.

The society's institutions are: The Modern High School was started in 1934; The "Prathamik Vidyamandir" is a primary school; The Sir Sassoon David Hostel and The Girls' High School.

QUEEN MARY'S TECHNICAL SCHOOL FOR DISABLED INDIAN SOLDIERS

Park Road, Kirskee

Principal. B. V. Bajaj, B.A., M.Sc., M.F.D., A.I.Ed. (Lond.)

LITERARY, SCIENTIFIC AND OTHER INSTITUTIONS**BHANDARKAR ORIENTAL RESEARCH INSTITUTE**

Poona 4.

The Institute was inaugurated on the 6th of July 1917, the 80th birthday of Late Dr. Sir R. G. Bhandarkar. Its objects are to publish critical editions of texts and original works bearing on Oriental antiquities, to provide an up-to-date Oriental library, to train students in the methods of research and to act as an information bureau on all points connected with Oriental studies. The valuable library of Dr. Sir R. G. Bhandarkar, which he had bequeathed to the institute, is now located in the central hall of the institute. Since April 1918 the Government of Bombay have transferred to the custody of the Institute the unique collection of nearly 20,000 manuscripts together with a maintenance grant of Rs. 3,000 a year. Manuscripts from this collection are lent out to scholars in all parts of the world. Government have likewise entrusted to the Institute a grant of Rs. 12,000 a year for the publication of the B.S.S. and the Government Oriental Series (the latter including, amongst others, Dr. Kane's History of Dharmashastra in five Volumes). The Institute has also started a series called the Bhandarkar Oriental Series in which several works have been already published and others are in progress. The Institute has undertaken to edit Mahabharata critically at the initiation of the late Raja of Aundh who donated a grant of Rs. one lakh for that purpose. The Institute has also received so far about Rs. 33,615 from the trustees of the Mahabharata publication fund, London, earmarked for the publication of the Virata, Udyoga and Karna parvans. More than three-fourth of the work on the critical edition has been completed. On 25th March 1944, the Institute inaugurated its Mahabharata printing department with a view to expediting the printing of the Mahabharata edition. The Institute issues a journal called *Annals* of the Bhandarkar Oriental Research Institute published normally four times a year. It also held under its auspices the first oriental conference on the 5th, 6th and 7th of November 1919 under the patronage of Sir George Lloyd and the presidency of Sir E. G. Bhandarkar.

The institute is housed in a fine, commodious and fire-proof building. Since August 1927 the Institute has been conducting for several years regular M.A. Classes in Sanskrit, Pali, Ardhamagadhi and ancient Indian culture. The Sanskrit department of this Institute has been affiliated to the University of Poona and

students are being coached for the M.A. and Ph.D. degrees of the above mentioned University. Lectures by eminent scholars are also delivered occasionally. Membership dues Rs. 10 a year or Rs. 100 compounded for life. Members can, subject to certain conditions, borrow books from the library and get the *Annals* free, and other publications (a list covering over 120 titles sent free upon request) at concession rates.

Hon. Secy., Dr. R. N. Bhandekar.

BHARATA ITIHASA SAMSHODHAKA MANDALA, POONA
1321, Sadashiva Peth, Poona 2.

Founded in 1910 by the late Mr. V. K. Rajwade and Sardar K. C. Mehendale and registered under Act XXI of 1860 in 1910 with the object of collecting and conserving historical materials in their broadest sense, erecting suitable buildings for preserving and exhibiting them, publishing such materials and other works of historical and cultural research and generally to encourage and foster critical study of and research in Indian history and culture. Possesses the best collection of Persian and Marathi historical papers owned by any public society. Has a rare collection of about eighteen thousand manuscripts and over a thousand Indian paintings now housed in a special wing. Maintains a coin cabinet and an armoury of old weapons. Has a section for copper-plates, sculptures, archaeology and has a library of general, historical and rare books. Holds fortnightly and annual meetings where notes and papers based on original documents are presented, discussed and afterwards published. The Poona City research section of the Mandala does research work on the city and publishes findings. Has published several volumes of original historical letters and other historical and literary works whose total number exceeds 97. Conducts a quarterly journal devoted to research running into 38 volumes. Has done some excavations work at Karai and got finds of the 2nd Century B.C. 2nd Century A.D. Work done mostly in Marathi. Celebrated the Silver Jubilee by calling the first All-India Modern History Congress in 1935. It has been receiving some annual grants from the Governments of Bombay and India. Was supported by many Rajas, Jagirdars, Sardars and the public. The late Dr. J. E. Abbot of New Jersey, U.S.A., left a gift of 30,000 dollars to the Mandala for buildings, etc. Annual membership fees for various classes are Rs. 3, 6, 12, 25, 75, and 150 which can be compounded for life by paying, Rs. 50, 125, 250, 500, 1,500 and 3,000. Effective members over 1,000; Annual income averages between 10 and 12 thousand rupees.

President: Malojirao Naik Nimbalkar; **Vice-Presidents:** S. B. Dhavale, Sardar G. B. Patwardhan and Raja S. R. Panta Sachiva of Bhor; **Chairman:** Mahamahopadhyaya Prof. D. V. Potdar, B.A.; **Secretaries:** G. H. Khare, S. N. Joshi; **Treasurer:** G. N. Mujumdar.

DECCAN COLLEGE POST-GRADUATE AND RESEARCH INSTITUTE Yeravda, Poona 6.

The Institute is a constituent recognised Institute of the Poona University. The property vests in the Deccan College Poona Trust created by the Government of Bombay in 1938. Its administration is vested in a Council of Management consisting of three ex-officio members and nine others nominated by Government. The Vice-Chancellor, Poona University, is the ex-officio Chairman of the Council.

The Institute conducts post-graduate research in Linguistics and History having in all eight chairs in these two subjects. In the department of Linguistics, the Institute has embarked upon a monumental project of preparing a Dictionary of Sanskrit on Historical Principles comparable to the great Oxford English Dictionary. Fundamental training in field methods and descriptive linguistics is also being given through organising of summer and winter schools of linguistics. In the department of History, Prehistoric Archaeology, caste Surveys and Anthropometric work are some of the principal features.

The Institute publishes its researches in its Bulletin issued about four times a year and in the Monograph, Dissertation and Handbook series, as well as the *Vak*—a special bulletin of the Sanskrit Dictionary Department from time to time.

JACQUARDS & AUTO-WINDERS

#12 SUPER SPEED CONER

Number of drum. 20-120
Traverse: 5', 6'. Yarn Speed:
650 yds/min. economical.
Package: Max. 8' weighing approx. 6 lbs.
Drum: Uniquely designed rotary traverse
motion made of Hard Bakelite.

**#66 MURATA-ABBOTT FULLY AUTOMATIC
CONE CHEESE WINDER**

Traveling units trip
around the machine
winding yarn from ring
cops onto cone or cheese.
The operator has only to put the ring cops
into the magazine in front of him and to take
off full package, sitting at the same position.
No. of spindles: 100-220. Yarn speed: approx.
650 yds/min. economical.

**#220 SUPER SPEED FULLY AUTOMATIC
WEFT PIRN WINDER**

12 spindles a set. Equipped
with rotary traverse yarn guide,
revolution is more than 10,000 per
minute. When the pirm is full, replacement of
bobbin will be done within 2 seconds on respective
spindle automatically.

**#100 FULLY AUTOMATIC WEFT PIRN
WINDER**

Spindle speed:
7,200 r.p.m. Spindle
per operator: max. 96
spis. Production per op-
erator per 8 hrs: over 500 lbs. of cotton
yarn, 40's. The full pirns are replaced
within 3 seconds automatically. Auto-
matic stop motion and bunch builder
work accurately.

RATNAGIRI DISTRICT

Headquarters : Ratnagiri.

Talukas : Dapoli, Mandangad, Khed, Chiplun, Guhagar, Sangameshwar, Ratnagiri, Rajapur, Devgad, Sawantwadi, Malwan.

Petas : Lanja, Vengurla, Kankavli, Kudal.

Ratnagiri District is bounded on the north by the Kolaba District; on the east by Satara North and Kolhapur Districts; on the south by the Portuguese possession of Goa; and on the west by the Arabian Sea. By the merger of the Sawantwadi State the area and population of the District have greatly increased. The length of the District is about 230 miles, and the breadth between 30 and 40. The District may be described generally as rocky and rugged. Near the coast the land consists of a bare elevated plateau, intersected by numerous creeks and navigable rivers flowing between steep hills. These rivers have along their banks the chief sea-ports and almost all the fertile land of the District. Ten miles or so inland, the country becomes more open; but going in still farther, it is occupied by spurs of the Sahyadri hills. This range itself forms a continuous eastern boundary, running parallel to the coast, at distances varying from 30 to 45 miles. It varies in height from 2,000 to 3,000 feet, though some of the peaks attain an altitude of 4,000 feet. The banks of the rivers produce fine crops of rice in the rains, and of pulse in the cold weather and some of the inland valleys exhibit the utmost fertility even though the soil is, as a rule, poor and barren. The District is densely populated and a large proportion migrate to Bombay in the fair season. The hill slopes are flooded with plantation of Alphonso and other mango grafts. Alphonso mango, the king of fruits, is exported on a very large scale to Bombay and other markets and forms the main money crop of the District. Ratnagiri, the headquarters town, is open and faces the sea. There is no railway connection, and communication is by steamer with Bombay and by motor with Kolhapur 82 miles away. With the construction of the Bombay-Konkan-Goa road by bridging all the rivers and creeks on the way, Ratnagiri is connected with Bombay by direct bus service via Chiplun, Mahad, Dharanitar, etc. This is the only main line of communication in the rainy season and will be turned into a national highway and cement concreted. This transport service is now taken over by the State.

The area of the District is 4,983 sq. miles. The population of the District (according to the 1951 census) is 1,711,964.

OFFICIALS

SABARKANTHA DISTRICT

Headquarters : Himatnagar.

Talukas and Mahals : Himatnagar, Prantij, Modasa, Bayad, Idar, Khedbrahma, Bhiloda, Meghraj, Vijaynagar, Malpur.

The Sabarkantha District is comprised of the former Idar State and 26 other smaller States, together with Prantij Taluka and Modasa Mahal, formerly in Ahmedabad District. It is bounded on the north by Sirohi and Mewar (both in Rajasthan), on the south by Ahmedabad and Kaira Districts, on the east by Dungarpur, Banswara and Mewar all of Rajasthan and Lunawada and Balasimor, now merged with the Panch Mahals and Kaira Districts, and on the west by the new Mehsana District of the former Baroda and Danta States.

The Aravalli Hills border on the north and east. The chief rivers in the District are Sabarmati, Hathmati, Meshwa, Vartak, Mazum and Khari.

The area of Sabarkantha is about 2,447 sq. miles and the population 684,017 according to the 1951 census. Himatnagar, the headquarters of the District, was the capital of the former State of Idar and is situated at a distance of 55 miles from Ahmedabad on the Ahmedabad Prantij section, a metre gauge line, on the Western Ry., which leads up to Khedbrahma, a place of pilgrimage 90 miles from Ahmedabad. Idar, Khedbrahma, Shamlaji, Bhavnath, etc. are places of pilgrimage and historical importance.

The average yearly rainfall is between 25 and 30 inches. About 95 per cent of the land is dependent wholly on rain water, while only about five per cent is irrigated by water from wells, streams and canals.

The principal crops are bajri, maize, paddy, jawar, cotton, wheat, sesamum and groundnut, of which maize, bajri, groundnut and cotton cover the larger area under cultivation. About 30 per cent. of the people consist of Bhils and other backward classes. The main occupation of the people is agriculture. The north and north-eastern parts of the District are hilly tracts and abound in jungle. Except for a few ginning factories and oil mills, the District is very backward in industry.

On the Ahmedabad Prantij section of the Western Railway, are situated the following District and Taluka headquarter towns, viz. Prantij, Himatnagar, Idar and Khedbrahma. The rest of the taluka headquarters are connected by buses which ply only during the fair season and most of the roads are katcha and sandy.

The talukas of Bhiloda and Modasa have been brought under the N. E. S. Scheme while the Khedbrahma Taluka and Vijaynagar Mahal, which are scheduled areas, have been brought under the Development Project Scheme.

OFFICIALS

Collector and District Magistrate, J. K. Gohel, I.A.S.

District Superintendent of Police, H. K. Navavada.

(For judicial purposes Sabarkantha and Ahmedabad are one District).

SATARA NORTH DISTRICT

Headquarters: Satara.

Talukas and Mahals: Wai, Satara, Koregaon, Khatau, Karad, Patan, Jaoli, Man, Phaltan, Khandala, Mahabaleshwar.

On the north it is bounded by the former State of Bhore and Poona District, on the south by Walva Taluka and Shirala Mahal, on the east by the Sholapur District, and on the west by the Sahyadri Hills. The former States of Phaltan and Aundh are merged into the Satara Collectorate.

The population of the District according to 1951 census is 1,175,309 and its area 4,023 sq. miles. The language spoken is Marathi.

From Mahabaleshwar in the north-west corner of the District, 4,717 feet above the sea, start two hill ranges of equal height and nearly at right angles to each other—one the main range of the Sahyadri running towards the south and forming the western boundaries of the District and the other, the Mahadeo range of hills, which, going first in an easterly and then in a south-easterly direction, extends towards the eastern boundary, where it sinks gradually into the plain. These hills throw out numerous spurs over the District, forming the valleys of the several streams which make up the headwaters of the Krishna, one of the largest rivers in South India. Near Mahabaleshwar and in the Koyna valley the hills are the highest in the District and are mostly very well wooded.

The soils of the District belong to the three main classes—red in the hills and black and light coloured in the plains. The black soil, especially along the valley of the Krishna, is fertile but scanty rainfall makes part of Khandala tract in Wai Taluka and that part of the District east of the railway most likely to suffer from failure of crops.

AGRICULTURE

The chief agricultural produce are jawar and bajri. Others include ragi, wari, wheat, rice and pulses. Cash crops which are a minor item include tobacco, groundnut and sugar-cane. Some market gardening is done at Mahabaleshwar and Panchgani for Poona and Bombay markets. Mango, jack and guava are grown for their fruit.

Forests in the Sahyadri range have considerable store of timber and fire-wood. Sandalwood and bamboo are occasionally found.

Government have undertaken the Koyna river project envisaging the construction of a gigantic Dam close to Helwak village (Patan Taluka) water from which can be used for agricultural purposes by people from Satara, Sholapur and Bijapur Districts and for generating electricity for industrial purposes.

Most Taluka towns have High Schools and practically every village has a Free Primary School run with Grant-in-aid. The 'Rayat Shikshana Sanstha', Satara, is doing useful work in this sphere with its Free Cosmopolitan Boarding at Satara, accommodating over four hundred students mostly from rural areas.

This being a martial District, Free Boardings are run by Government at Satara and Karad for the sons and dependents of the Defence Forces in the Army, Navy and Air Forces. 'The After Care Association' and 'The Soldiers' Board' do useful work under the supervision of the Collector.

The main line of communications is the Southern Railway which traverses the centre of the District for about 90 miles from north to south. Satara, the headquarters, is about 10 miles from Satara Road Station. Then there is the Poona-Bangalore Road, crossing the District from north to south. Other important roads include the Wathar-Mahabaleshwar Road via Wai and Panchgani. Also east to west are the Satara-Pandharpur and the Karad-Chiplun Roads. There are numerous feeder roads for the railway.

There is a large engineering concern manufacturing farm implements, machine tools, and textile machinery at Satara Road Station. Another engineering concern has been established at Udyamnagar near Karad while the one at Karad proper has been expanded with State aid. At Ogalwadli near Karad are the well-known glass works. The Sugar Works at Phaltan also deserve special mention. The Plastic Products of India, Ltd., Satara, a new industry, in the Deccan, has secured State aid.

The State Transport buses now ply on all important roads in the District.

OFFICIALS

Collector and District Magistrate, M. B. Salvi, I.A.S.

District and Sessions Judge, V. D. Jente.

District Superintendent of Police, A. R. Braganza, I.P.S.

DECCAN EDUCATION SOCIETY'S NEW ENGLISH SCHOOL SATARA

The school provides for a variety of cultural subjects and with the help of Government Centres, provides also for technical and

commercial courses up to the S.S.C. Examination. The strength of the school is over 1,400.

Superintendent: Dr. D. N. Gokhale, B.A. (Hons.), B.T., Ph.D.

DHARMAKOSHA MANDAL

P.O. Wai, District North Satara.

Aims: To conduct research in ancient Indian religion, philosophy and culture and edit and publish encyclopaedic works such as Dharmakosha, Mimamsakosha, etc.

Editor-in-Chief: Laxman Shastri Joshi, Tarkateerth.

Secretary: Vasudeo Shastri Konkar.

PRATAPSIKH HIGH SCHOOL, SATARA

It is a multi-purpose high school teaching vocations like Agriculture, Technical and Commerce. Pupils are trained in the practical side of Agriculture and subsidiary industries like poultry keeping and dairying. Also pupils are trained in Technical, Commerce courses and Typewriting. Special features of the school are that the school owns an Agricultural Farm of 22 acres, Agricultural Museum and well equipped library. It is a Government multi-purpose school.

RAYAT SHIKSHAN SANSTHA, SATARA

(Educational Society for Masses)

Objects & Scope:—To spread education, primary, secondary and higher, among rural masses and particularly poverty-stricken backward and Scheduled Class communities, on the basis of self help and as far as possible free of charge.

It conducts two Arts Colleges, one B.T. College, six Primary Training Colleges, 37 High Schools, 36 Middle Schools, 64 Primary Schools, 26 Cosmopolitan Boardings and six other institutions in the districts of Maharashtra.

NAGAR VACHANALAYA, SATARA

There are at present 4,657 English, 5,832 Marathi, 540 Hindi and 122 Sanskrit books. The library subscribes to a large number of periodicals including dailies and weeklies from various States. There is a special section for children and ladies. A study room for college students has also been started.

THE SATARA EDUCATION SOCIETY, SATARA

The Society runs two full-fledged High Schools, the Purnima English School, Satara, and Shri Laxmi Narayan English School, Khatau and a Model Primary School at Satara. Technical education has been recently introduced in P. E. School and the first batch of technical subjects was to appear for the S.S.C. Examination in March 1958. The School buildings at Satara and Khatau are under construction.

THE SHIKSHAN MANDAL, KARAD

Maintains (1) The Tilak High School, Karad, (2) Kanya Shala Karad, (3) The Nutan Marathi Shala (1) Pal Vidyalaya Chavali.

SATYADHAMABAI KALE STREET SHIKSHANA MANDIR, SATARA

The Kanyashala (a high school for girls) and Mahilawadan (adult classes) are managed by the Association. There are about 650 girls in the High School studying for the S. S. C.

Bai Manohar Mandir, a pre-primary School, has been attached to this school. "Mahila Mandal" is a ladies' club. A Hindi Shikshak Samadhi is also conducted.

Superintendent:—P. V. Gole, B.Sc., B.T.

INSTITUTIONS

SITA RAMCHANDRA VEDIC DHARMA PRASARAK MANDAL KANIERE TRUST, SATARA

The trustees run an "AGNIHOTRA" (Sacred Fire Temple) and "Ved Parayan Mandir" (place for daily recitation of the Vedas) by learned Vedic priests. A small school for coaching students, with stipends, in higher Vedant Philosophy is maintained under the guidance of learned pandits. **Board of Trustees:** D. R. Raju Pawhye, Pleader (Chairman).

THE VYAYAM MANDAL, SATARA

It is a Govt. recognised Physical training registered institution availed of by students and adults. In appreciation of its long service in the field of physical education, the institution has been permitted to start a C. P. Ed course. It was inaugurated by Mr. Y. B. Chavan, Chief Minister of Bombay on 16th August 1957, the 1857 Centenary day and was named Kranti Smriti Shareerik Shikshan Vidyalaya.

MAHABLESHWAR

Mahableshwar in the Satara North District is called the queen of the hill stations in Bombay State. It is situated on one of the great slopes of the Sahyadri range at an elevation of 4,700 feet above sea-level. During the 8 months from October to May the climate is most agreeable. By day the temperature varies between 80 and 86, while the nights are cool and pleasant. But during the monsoon the rainfall is so heavy, the average being about 250 inches a year, that the place is almost uninhabitable. The whole place is picturesque in the extreme and there are a number of excellent walks and drives which give access to beauty spots, some of which contain interesting monuments. One of the things for which the place is famous is fruit especially raspberries and strawberries.

It is possible to have separate furnished rooms, cottages, and bungalows at a cheap rent in the town.

The town contains many bungalows but as the official visit of the Governor has been in suspension for the last few years, Government House and other quarters remain vacant.

It is now possible for people of moderate means to go to the hill station for a comparatively inexpensive holiday and change in the newly opened Holiday Camp set up by the Bombay Government. The Camp is located in the Government House property on the way to the Bombay Point and one-room, two-room and three-room accommodation is available to the public at purely nominal rent. The stay of visitors at the Camp is limited to one week so that the facilities offered are taken advantage of by as many people in need of a change as possible.

The Camp is served by a vegetarian canteen, tap water and electric lighting. It is normally thrown open during the months October to May, and applications for accommodation have to be addressed to the Executive Engineer, Poona Division, Poona.

There are several routes to Mahableshwar but the most popular is the one starting from Poona, from where it is only 75 miles. The journey which is both convenient and cheap takes only 4 hours.

HOTELS

Hotels are open only eight months in the year and are closed during the monsoon.

Aram Lodging & Boarding House.

Dream Land Hotel.

Fredrick Hotel.

Guest House.

Happy Home.

Krishna Bhuvan Hotel.

Paradise Hotel.

Race View Hotel.

Rippon Hotel.

PANCHGANI

Panchgani is a well known hill station in Satara North District, 63 miles from Poona. It is 4,300 feet above sea-level and has a cool, salubrious and comparatively dry climate. The average rainfall is about 80 inches a year. Panchgani is thus a well known sanatorium.

The town abounds in beauty spots. It is, however, best known for its table-land, which is a very extensive plateau 4,550 feet above sea-level. The table-land covers 90 acres of ground with a small lake in which people can have a swim.

At the foot of the table-land there is a municipal public garden.

Panchgani is habitable throughout the year, and there are excellent shops for provisions and oilman stores. Poultry, fowl and eggs are all very cheap. The town is electrified and the roads are well lighted.

Panchgani can be reached from Poona from where there is regular bus service.

The town has a large and up-to-date tuberculosis sanatorium—Rel Air Sanatorium.

SCHOOLS

Panchgani is famous for its schools. They all have their own buildings with laboratories, dormitories and hospitals.

St. Joseph's Convent High School for Girls.

Kimmins High School for Girls.

Sanjivan Vidyalaya.

Belimaria High School.

Union High School.

New Era School for Girls.

Peter's High School.

Young Zoroastrian School for Girls.

ST. PETER'S BOYS' HIGH SCHOOL

Panchgani.

The School has accommodation for about 150 boarders as well as the Principal, staff and matrons.

Special facilities are provided for all kinds of games. Educational equipment includes a talkie film projector.

Principal :—O. D. Bacon, M.A.

SATARA SOUTH (SANGLI) DISTRICT

Headquarters:—Sangli.

Sub-Divisions:—Miraj, Khanapur.

Talukas and Mahals:—Miraj, Tasgaon, Walva, Khanapur, Jath, Shirala (Mahal).

With the merger of sixteen Deccan States in Bombay State on March 8, 1948, arose the necessity of re-constituting some of the already existing Districts and creating new Districts in the State.

The new District of Sangli later designated Satara South came into existence on August 1, 1949. The District is comprised of some portions of Sangli, Miraj Sr., Miraj Jr., Aundh, and Jath States of the Sangli Group and the three southern Talukas and one Mahal of the former Satara District. It is included in the Poona Division of Bombay State.

The District is bounded by Bijapur District on the east, Kolhapur and Ratnagiri Districts on the west, Kolhapur and Belgaum Districts on the south, and Sholapur and Satara North Districts on the north.

The area and the land revenue of the District are 3,134 square miles and Rs. 22,50,000 respectively. The population of the District according to the census of 1951 is 1,000,141.

The climate of the District is generally dry, and healthy, with an average rainfall ranging from 15 to 25 inches except for parts in the Shirala Mahal, which being on the borders of Konkan has a comparatively damp climate and a heavy rainfall. The Mahal includes a hilly tract.

The Krishna, the Verala, the Warana, and the Agarani are the four important rivers flowing through the District. The soil on the banks of these rivers is very fertile, yielding rich sugarcane crops. Starting from the river Nandhi in the Khanapur Taluka is a canal called Chikili.

The principal crops grown in the District are jowar, millets, pulses, wheat, ground-nut, turmeric, tobacco, sugarcane and a little cotton and rice and some oil-seeds.

The Southern Railway's Poona-Bangalore line runs through the District from Takari right upto Miraj, touching on the way Kirloskarwadi, Bhilavadi, Nandre and Madhavnagar. A branch of the Central (B.L.R.) Railway running from Barsi to Miraj touches at a number of places in the Jath Taluka. Miraj is an important railway junction in the District where lines from Poona, Bangalore, Sangli, Kolhapur and Pandharpur converge. From Miraj to Sangli there is a branch of the Southern Railway covering a distance of 6 miles. From Miraj to Kolhapur there is another branch line covering a distance of 30 miles. Two important trunk metalled roads called Karad-Bijapur Road and Tasgaon-Gotar Road run through the District. The State Transport buses regularly ply between Sangli on the one hand and Bijapur, Poona, Kolhapur and Jath on the other. There are also many other bus-services functioning throughout the District. Sangli-Miraj (6 miles) and Sangli-Islampur-Peth (27 miles) are now fine cement-concrete roads.

TRADE, INDUSTRY

Sangli, which is the headquarters of the District, is an important centre of trade and commerce specially for tobacco, groundnuts, turmeric, jaggery, chillies, ghee, and cotton trade. It has ginning, weaving and spinning mills, groundnut, turmeric, iron and steel factories represented chiefly by firms like Kirloskar Bros. at Kirloskarwadi, Dandekar Bros. and Bhilde & Sons at Sangli. The town has also oil mills and ice factory. It is also known for its silver, copper and brassware and gold ornaments. There are cloth mills. Bidi making is another big industry.

Besides, Sangli is a big centre of forward-delivery transactions. Sangli Spices and Oil-seeds Exchange Ltd. is the only Government recognised centre for forward delivery contracts in turmeric in India. It has a Chamber of Commerce and a number of trade Associations.

The Government of India has opened a warehouse at Sangli to store agricultural produce.

Being a railway junction, Miraj is now commercially developing. It has a weaving mill, an oil mill, an ice factory and industrial works called The Yeashwant Industrial Works. Another town Malgaon is famous for its beetle-leaves, which are exported throughout the year to all parts of India.

EDUCATION

The District is sufficiently advanced in point of education—primary, secondary and higher. Compulsory Primary Education has been introduced in Tasgaon, Khanapur and Walva Talukas and Shirala Mahal. It has been extended to the merged areas of the former States. There are 886 primary schools with 3,966 teachers in them. The total number of pupils is 140,995 of whom 16,073 are girls. There are 686 adult education classes, and a school-cum-community centre at Nandre village, seven miles from Sangli. There are 8 pre-primary schools and 60 basic schools with 23,000 students in the latter. The number of secondary schools is 52, with about 10,807 pupils. There is also a Sanskrit Pathashala at Tasgaon. In the matter of higher education the District has one Arts & Science College, one Engineering College, four Primary Teachers' Training Colleges and one Nursing School.

Sangli, Madhavnagar and Miraj especially which are in close proximity to one another are now rapidly developing into important educational and industrial centres in Southern Maharashtra. The Raja of Sangli has established at Sangli the "Adhyatma Vidya Mandir", an institution solely devoted to the study of Philosophy, Religion and allied pursuits. There are two Primary Teachers' Training Colleges, one for men and the other for women at Sangli. There are also five High Schools in the city. There is a school for the study of ancient learning and another for the study of domestic science. There are also four Montessori schools. Miraj has four High Schools. The Deccan Education Society started about 30 years ago the Willingdon College at Sangli which provides instruction in Arts and Sciences and prepares students for degree courses. In 1947 the Maharashtra Technical Education Society, Poona, started at Sangli the New Engineering College which is now named as Walchand College of Engineering, Sangli.

Because of the Mission Hospital (Wanless Hospital), run by the American Presbyterian Mission and founded by the late Sir William Wanless, Miraj has become one of the most up-to-date and efficient medical centres in India. The Sir William Wanless Tuberculosis Sanatorium, at Wanlesswadi, is now the largest among first grade sanatoria in India. Besides the T. B. Sanatorium there is a Leprosarium at Miraj. The Miraj Medical Centre also runs a Nursing School and a Compounding School.

SHOLAPUR DISTRICT

Headquarters: Sholapur.

Talukas: Sholapur South, Sholapur North, Barsi, Pandharpur, Sangola, Malshiras, Karmala, Akalkot, Mangalwedha, Mohol, Madha. Sholapur District is bounded on the north by Ahmednagar District, on the east by Osmanabad District, on the south by Bijapur District and on the west by Satara North and Poona Districts. Sholapur is generally flat and undulating. Most of the surface rolls in long low uplands separated by hollows, with an occasional level. The shallow solled uplands are suitable for pasture and the deep-solled lowlands, under careful tillage, yield rich crops. From time to time the District suffers severely from drought, to which its situation and the treeless surface of the country expose it. The Indian Council of Agricultural Research, therefore, opened at Mulegaon, a village about 4 miles to the east of Sholapur, a Dry Farming Research Station.

Sholapur town, the headquarters of the District, is a station on the Central Railway. It has a fine old fort and a travellers' bungalow. The languages spoken are mainly Marathi and also Telugu and Kannada.

The population of the District according to 1951 census is 1,505,316. Area: 5,814 square miles.

OFFICIALS

Collector and District Magistrate, S. N. Sapre, I.A.S.

Addl. Collector, S. L. Orale, I.A.S.

District and Sessions Judge, B. N. Deshmukh.

SORATH DISTRICT

Area: 3,427 sq. miles; Population: 1,001,154.

Headquarters: Junagadh

Talukas and Petas: Bhuvan, Junagadh, Keshod, Kutiyana, Malia, Manavadar, Mangrol, Mendarda, Patan, Porbandar, Ranavav, Talala, Una, Vantali, Visavadar.

Agricultural land under paddy, jawar, bajra, wheat, groundnut and cotton is 14,09,400 acres in extent. Agriculture is the main occupation of the people.

Sorath is well-known because of the lions in the Gir forests. This is the only place in Asia where lions are found.

Porbandar and Veraval are the two important ports in the district. Veraval is being developed as a fishing port. Porbandar is well known as the birthplace of Mahatma Gandhi.

The main industries of the district consist of cement, ginning and pressing, oil, etc. New industries like soda-ash and rayon are coming up.

SURAT DISTRICT

Headquarters: Surat.

Sub-Divisions: Surat, Navsari, Bulsar, Vyara.

Talukas and Mahals: Chorasal, Olpad, Bardoli, Mandvi, Bulsar, Chikhli, Pardi, Dharampur, Bansda, Navsari, Palsana, Kamrej, Mangrol, Mahuva, Vyara, Songadh, Valod and Gandevi.

Surat District lies between North Latitude 20°15' and 21°28' and East Longitude 72°38' and 73°31'. Following the merger of Baroda State into Bombay State the whole district of Navsari, formerly part of Baroda, was incorporated into the Surat District. The former States of Dharampur, Bansda and Sachin were also added to the District with the result that the area and population of the District were more than doubled. Surat District is bounded on the north by Broach District, on the east by West Khandesh, Dangs and Nasik Districts, on the south by Thana District and the Portuguese territory of Daman, and on the west by the Arabian Sea. The present area of the District is 4,499 square miles and the population according to 1951 census 1,827,842. The majority of the population in Bansda and Dharampur and several Talukas, particularly those having jungle areas of the former Navsari District belongs to backward classes called Ranparaj, Chodhra, Dhodha and Dubla. The language spoken is Gujarati.

Surat District consists of a wide alluvial plain, stretching between the Dang Hills and the coast, from the Kim river on the north to Damanganga on the south—a distance of about 80 miles. Much of the soil is rich, but the western border of the District consists of less fertile lands. With the inclusion of the former Navsari District and the States of Bansda, Sachin and Dharampur into the District, it has acquired a very valuable and wide forest area.

Surat, the chief city and administrative headquarters, is situated on the south bank of the river Tapi 10 miles from the sea. Its population according to 1951 census is 223,182. It is a centre of brisk trade.

B. Ideas being noteworthy historically, Surat is one of the principal centres for handicrafts in the state. Nearly half the population of the city depends on handicrafts. Jarl work, laces, silk and jarl brocades, embroidery, ivory and sandalwood, inlay work of *varakh-nakshi* and ivory bangles are the major handicrafts for which Surat is still famous not only throughout India but even outside India. Gold thread produced here is exported to many countries. Cotton and art silk weaving is another major industry which received an impetus during the War. The taluka of Olpad is famous for its knives and nutcrackers, while Bulsar is well known for its silver engraving work. A co-operative industrial centre is being organised at Udhna, three miles from Surat.

THANA DISTRICT

Headquarters: Thana.

Talukas and Mahals: Thana, Kalyan, Bhiwandi, Shahapur, Murbad,
Wada, Jawhar, Basseln, Palghar, Dahanu, Umbergaon, Mokhada
Peta.

Area: 3,817 sq. miles. Population: 1,361,053.

Thana District lies between North Latitude 18°53' and 20°22' and East Longitude 72°39' and 73°48'. It is bounded on the north by the Portuguese territory of Daman and Surat District; on the east by the Districts of Nasik, Ahmednagar and Poona; on the south by Greater Bombay; and on the west by the Arabian Sea. Forty-seven villages from the former Bombay Suburban District were originally merged with the Thana District. Later, the area from Sion to Bhandup on the Central Railway and the area from Bandra to Jogeshwari on the Western Railway were merged with Greater Bombay. With the further extension of the Greater Bombay area on February 1, 1957, 24 villages of Thana District comprising the Municipalities of Malad, Kandivli, Borivli and Mulund and the village panchayats of Goregaon and Dahisar, were merged with Bombay. The population based on the 1951 census figures is 1,361,053. The languages spoken are Marathi, Gujarati and Urdu. The Christians of Salsette and Basseln, a very numerous community, are the descendants of the converts of St. Francis Xavier.

Thana consists of a distinct strip of low land, intersected by hilly tracts rising to an elevation of from 100 to 2,600 feet. Along the whole line of the coast the soil is fertile, and the villages are exceedingly populous. In the north-east the hills are covered with wood, and the valleys are but partially cultivated. The villages are seldom more than scattered groups of huts, and the population consists mainly of uncivilised aboriginal tribes, many of whom still wander from place to place as they find water or to suit their fancy. Inland the District is well watered and well wooded. Elsewhere than in the north-east, the country consists of a series of flat low-lying rice tracts, broken by well-marked ranges of hills.

Thana District is fast developing into a prominent industrial area. Hundreds of acres of land are being converted into sites for factories. Scores of factories have already been set up particularly along the railway track and the Bombay-Agra and Bombay-Poona Roads. Mulund village, which was in Thana Taluka and is now part of Greater Bombay, has been developed into a modern suburb with all the usual amenities.

Bhiwandi, a Taluka town nine miles from Thana situated on the Bombay-Agra Road is noted for handloom and power loom fabrics. The "Bhiwandi" variety of Indian saris is very popular among Decran women. The town is mostly inhabited by Momins and in some parts of the town every house has a spinning wheel. Bhiwandi Taluka is also famous for its timber and charcoal trade.

Kalyan, the biggest and the most thickly populated town in the District, is 34 miles from Bombay and is a junction on the Central Railway's north-east and south-east sections. "Ulhasnagar" the largest refugee township in Bombay State is situated in Thana District two miles from Kalyan near the Ulhas River. The township is designed to accommodate 80,000 people.

The main produce of the District is rice which is of superior Kolamb variety.

Dahanu, Basseln and Umbergaon, the three Talukas are specially famous for fruit gardens and the bulk of Bombay's fruit supply comes from these areas. Basseln plantains and betel-leaves are very much in demand.

At Thana, Bhyandar and Belpur there are extensive salt works. The chief articles of export from Thana District are paddy, rice, vegetables, salt, betel-leaves, plantains, bricks, gram, firewood, charcoal, lime, ash fresh or dried, timber, coconuts, mangoes, flowers, saris, handloom fabrics, woollen cloth and milk.

Tansa and Vihar lakes and the Vaitarna river which are the main sources of Bombay's water supply are situated in Thana District and are connected with Bombay by a special trolley line.

The Thana District Prison is one of the major prisons in the State and there is also a mental hospital on the outskirts of Thana town.

Thana, the chief town, 21 miles north of Bombay, is as already mentioned a station on the Central Railway. The Fort, the Portuguese Cathedral, a few carved and inscribed stones, and several reservoirs are now the only signs that Thana was once an important city. There is a good travellers' bungalow in the town. Basseln, on the Western Railway, contains the famous ruins of the ancient Portuguese dominion in Salsette.

WARDHA DISTRICT

Headquarters : Wardha.

Tahsils, Sub-Divisions : Wardha, Hinganghat, Arvi.

The District lies roughly between 20° and 21° 15' North Latitude and 75° 15' and 79° 15' East Longitude. It is bounded by the river Wardha on the south and south-west, by Chanda District on the south-east, and by Nagpur District on the east and north-east, and by Amravati District on the west. The area of the District is 2,434 sq. miles and the population 538,903. The languages spoken are Marathi and Hindustani.

Wardha is noteworthy in that it has been the seat of a number of Gandhian institutions concerned with village uplift and the ideals of self-sufficiency and self-service. Wardha being centrally located

is also an important junction on the Central Railway; trains which go from Madras to Delhi and from Bombay to Calcutta pass through Wardha.

Wardha has black cotton soil and the most important cash crops grown are jawar and cotton. Though there are rivers like Wainganga agriculture depends on rain. There is thus an elaborate programme today for sinking new wells and deepening old ones. There are pressing and ginning mills in the District and also textile mills.

OFFICIALS

Collector, V. B. Eswaran, I.A.S.

District Superintendent of Police, S. D. Rege, I.P.S.

District and Sessions Judge, T. R. Gosewade.

ASSOCIATIONS

The capital is about Rs. 50 lakhs. It is calculated that the sum so far distributed among the spinners and weavers in the villages would be about Rs. 20 crores.

President, Dhiren Mazumdar; **Secretary,** A. W. Sahasrabudhe, Jt. Secretaries, Vallabh Swami, Siddhraj Dhadha; **Treasurer,** Radhakrishna Bajaj.

Trustees, A. W. Sahasrabudhe, Siddhraj Dhadha, Radhakrishna Bajaj.

Four well-known associations which merged into the Satya Seva Sangh are: All-India Spinners' Association, Sewagram; All-India Village Industries Association, Wardha; Go-Sewa Sangh, Puri, Hindustani-Prachar Sabha, Wardha.

HINDUSTANI TALIMI SANGH

Sevagram, Wardha.

The object is to propagate Nai Talim (new education), that is, national education for life through manual activity and handicraft. Work is conducted at Sevagram in five departments: Pre-Basic, Basic, Post-Basic, Teacher training, Adult education.

President, E. W. Aryamayakam; **Secretary,** K. S. Radhakrishna.

JAMNALAL BAJAJ CENTRAL RESEARCH INSTITUTE FOR VILLAGE INDUSTRIES

Maganwadi, Wardha (Bombay State).

Aims and Objects : The Research Institute was established in 1955 under the First Five Year Plan for research and investigation for the improvement of the tools and techniques of village industries. It is under the Khadi & Village Industries Commission and is advised by a Research Committee consisting of members of the Commission and of the Khadi & Village Industries Board, representatives of the Council of Scientific and Industrial Research, the National Laboratories and others. The Institute is in charge of a Deputy Director.

Deputy Director, Dr. M. Sadashiva Rao.

WEST KHANDESH DISTRICT

Headquarters :—Dhulia.

Talukas and Mahals :—Shirpur, Shahada, Taloda, Sindkheda, Nanderbar, Nawapur, Dhulia, Sakri, Akranli, Akal-kuva.

West Khandesh District lies roughly between 20° 36' and 22° North Latitude and 73° 35' and 75° 17' East Longitude. It is bounded on the north by Jabua District in Madhya Pradesh, on the east by East Khandesh District, on the south by Nasik District and on the west by Baroda District.

The area of West Khandesh is 5,391 sq. miles and the population 1,146,024 (1951 census). In the western parts Bhils who number 400,000 predominate. The languages spoken are Marathi, Gujarati and Bhili.

West Khandesh along with East Khandesh forms the most northerly section of the Deccan table-land. The river Tapi flowing from east to west divides it into two unequal parts. Of these the bigger lies in the south and is drained by the rivers Bural, Panjara, Bori and Girna. This is a long central plain comprising an extensive area of rich alluvial soil. Northwards beyond the plains the land rises towards the Satpura Hills. The country is rugged and thickly wooded and is mainly inhabited by Bhils. On the whole the District is well supplied with surface water.

AGRICULTURE

The main crops of this District are cotton, wheat, bajra, jawar and groundnut. Sugar-cane and chillies form the main irrigated crops. Lately many more sugar-cane crushing factories and gur manufacturing factories have been started in the District. There are two agricultural research stations—one for Cereal research and another for cotton research at Shahada and Dhulia respectively.

There are two types of irrigation in this District: (1) Well irrigation and (2) Bandhara irrigation. The rivers used for irrigation are chiefly the Panjara, Kan, Gural and Gomti, which are banded at a number of places. Each band irrigates about 100 to 200 acres. The total area under Bandhara is about 4,000 acres. The main crops grown on these Bandharas are sugar-cane, wheat and paddy, in this rotation. This system is known as Fad System.

There are two educational institutions in the Bhil area. Bhil Sadharna Committee and Bhil Seva Mandal. The Government has also opened a Sarvodaya centre at Khandbars for the uplift of the Bhil community.

The headquarters of the District Dhulia, was also the old capital of the united district of Khandesh. It is situated on the branch of the Central Railway which joins the main line at Chalisgaon.

HOSPITALS

There are two civil hospitals at Dhulia, viz., Dhulia Civil Hospital, a Government institution and the Suwarta Memorial Hospital, run by the Presbyterian Mission. The Dhulia Civil Hospital also trains nurses and Dais. The Local Red Cross Society conducts an Ante-Natal Clinic, a Child Welfare Centre and a Family Planning Centre at Dhulia. There is also a free dispensary conducted by Prant-Rakshak Sanstha.

OFFICIALS

Collector and District Magistrate, M. A. Deshmukh, I.A.S.
District and Sessions Judge, D. P. Shikhar.
District Superintendent of Police, M. T. Satam.

EDUCATIONAL INSTITUTIONS

There are five High Schools in Dhulia, including one for girls. There are about 80 primary schools, where free and compulsory primary education is given to both boys and girls and 2 primary teachers' training colleges including one conducted by Government. There is also an Arts & Science College run by the S. S. P. Sanstha. The King Edward VII Technical School at Dhulia gives technical education to students. Government has started a graduates' Basic Education College, in the premises of Grand High School. The Institute of Engineering Technology, run by the Dhulia Education Society, Dhulia, started coaching students for Diploma in Civil Engineering, since June 1954. It has accommodation for about 120 students every year.

The Bhil Seva Mandal and the Bhil Sudhar Samities, are working for the social and educational uplift of the Bhil community.

Two more institutions are the Gandhi Tatwadnyan Mandir, teaching Gandhian philosophy, and the Sanskrit Patashala teaching Sanskrit. There is a Historical Research Institute called Rajwade Sanshodhan Mandal where important manuscripts and historical articles and books are available for research and study. In Wark-Devata Mandir, all works of Sant Ramdas and literature pertaining to him are carefully preserved and further studies are being pursued.

Dhulia is the Divisional Headquarters of the Bombay State Transport Corporation, of the Khandesh Division. A direct bus service runs to Indore in Madhya Pradesh. There is also a big repair workshop.

DHULIA EDUCATION SOCIETY.—The Society owns two high schools: (1) The J. R. City High School and (2) The New City High School, the total number of boys being 1,561. The Society started an Institute of Commerce in 1955 and an Institute for Secondary Teachers' Certificate Course in 1957.

SHRI SHIVAJI VIDYA-PRASARAK SANSTHA, DHULIA.—This is the pioneer Educational Institution started in the year 1908.

The Institution runs a Boarding House for Girls, a High School and a Training College for men and women. It also runs a Cosmopolitan Hostel for Boys, recognized by the Government of Bombay and a Hostel for the Franciscans in the Training College. From June 1954, the Institution conducts an Arts College and a Science College preparing students, upto B.A. and Science Courses respectively, and an Institute for S.F.C. & C.P.Ld. training, with separate hostels attached to each of the above.

ASSOCIATIONS

MAHARASHTRA HARIJAN SEVAK SAMITHI

The Provincial Board with the help of its District and Taluka committees and Propaganda workers, is carrying on, besides welfare

work in the form of hostels, Sanskar Kendras, Balwadis for boys and girls and scholarships for Backward class students, education and propaganda for removal of untouchability.

THE INDIAN RED CROSS SOCIETY, WEST KHANDESH BRANCH, DHULIA.—The Society has been for the last eleven years conducting a Child Welfare Centre, the first of its kind in the District, at Dhulia where children are given free milk and ultra-violet light medical treatment. Ultra-violet light is also given to children and women under medical advice. The society also opened an ante-natal clinic. In 1953 the Society opened a family planning centre. In 1955 the Society conducted first aid and home nursing classes for ladies.

DHULIA SAHAKAR NAGARIK SANGH.—This institution was established at Dhulia fifteen years ago with the object of educating Dhulia public in civic sense. President: Dr. B. B. Kartane; Secretary: V. B. Oka.

MAHATMA GANDHI TATWADNYAN MANDIR, DHULIA.—Aims: Founded at Dhulia in 1946 to perpetuate the memory of the late Mahadeobhai Desai, who devoted his whole life to the service of Mahatma Gandhi. It is designed to preserve all Gandhian literature and spread Gandhian philosophy. The site was given free by Shet Shaligram Ramchandra Bharti and Shet Rameshwar Joharnal Poddar.

CLUBS

Dhulia Gymkhana.
Cumino Club.
Mahila Sadan (ladies).
Vanita Samaj (ladies).

BANKS

DHULIA URBAN CO-OPERATIVE BANK, LTD.—This Institution known as Dhulia Taluka Urban Co-operative Society was established in 1908, the first co-operative society in West Khandesh District; in 1923 it was converted into Dhulia Urban Co-operative Bank.

RAJWADE MANDAL PEOPLE'S CO-OPERATIVE BANK LTD., DHULIA.—This bank, one of the very few of its kind in the State, was established in February 1938. The shareholders of the bank have agreed to pay one-fourth from their share of dividend due from the bank each year, to a research institution—Rajwade Sanshodhan Mandal—established in the memory of the late Mr. Vishwanath Kashinath Rajwade, an eminent research worker.

INDUSTRIES

Dhulia is the biggest cotton centre in the Khandesh District and has a well regulated Cotton Market. There is also another regulated Cotton Market at Dondalcha in the blindkheda Taluka on the Tapi Valley section of the Central Railway.

There are Spinning and Weaving Factories.

The number of cotton ginning and cotton pressing factories is 47.

Dhulia has also been lately developing into a groundnut oil industry centre. There are about 42 oil mills, including 14 at Dhulia, which together produce about 2,000 tons of groundnut cake. One of these mills uses the latest type of oil expeller machinery. There are also saw mills.

SPINNING AND WEAVING MILLS

NEW PRATAP SPG., WEAVING AND MFG., CO., LTD., Spindles 47,324, Looms 1,020; Agents: Motilal Maneckchand and Sons. Office on Mill premises. Mills at Dhulia, West Khandesh.

YEOTMAL DISTRICT

Headquarters: Yeotmal.

Taluka: Yeotmal, Darwaha, Kelapur, Wun, Pusad.

The District lies between North Latitude 19° 26' and 20° 42' and East Longitude 77° 25' and 79° 9'. It is bounded on the north by Amravati, on the east by the Wardha River, on the south by the Penganga River, and on the west by Akola District. The area of the District is 5,219 sq. miles and the population 931,982. The language spoken is Marathi.

The District consists generally of hilly country formed by offshoots of the Ajanta chain. The rivers Wardha and Penganga and their tributaries constitute the drainage system of the District.

Yeotmal town is connected with the main railway line from Bombay to Nagpur through Darwaha. The principal roads are those from Yeotmal to Dhamangan, Darwaha and Wun.

The staple foodgrain is jawar; other foodgrains are wheat and pulses. As elsewhere the most profitable cash crops are cotton and oilseeds. Forests cover a larger area than in any other District in the State and yield considerable quantity of timber and fuel. The

principal industry is the preparation of cotton for the market. Exports include raw cotton, oilseeds, cereals and pulses, and the chief imports include cereals and pulses, salt and sugar.

OFFICIALS

Collector, P. V. Pagay.
District Superintendent of Police, P. A. Bantawale, I.P.S.

ASSOCIATIONS

DELHI

Area: 578 sq. miles; Pop.: 1,744,072; Hindus: 1,467,854; Sikhs: 137,006; Muslims: 99,501.

Under the Constitution of India, Delhi is a Union Territory. The Centre exercises control over the Territory through a Chief Commissioner appointed by it.

Delhi has an Advisory Council which is associated with the Home Minister, who is responsible for the administration of the Territory.

The Council comprises (1) all members of Parliament representing Delhi, (2) the Mayor, (3) the Vice-Chancellor of Delhi University, and (4) the Vice-President of the New Delhi Municipal Committee.

The Council is consulted in regard to the (1) general question of policy relating to the administration of the Territory, (2) all legislative proposals concerning the Territory, including proposals to extend any State Acts, (3) general matters relating to the annual financial statement of the Union in so far as it concerns the Territory and such other financial questions as may be specified by the President and (4) any other matter about which it may be considered necessary or desirable by the Home Minister that the Committee should be consulted.

Subject to the discretion of the Home Minister, members of the Council have the right in regard to interpellations analogous to and under similar limitations as those of members of a State legislature.

The meetings of the Council are presided over by the Home Minister.

Besides, there are two Advisory Boards to advise the Chief Commissioner in regard to industrial matters and public relations. They are presided over by non-officials.

The Highest Court of Appeal in Delhi is the Punjab High Court—circuit bench sits in Delhi.

GREATER DELHI

Delhi is really the size of a district. The majority of its population lives in the urban areas of Delhi.

Development work is being carried out under the supervision of the Delhi Development (Provisional) Authority.

New Delhi is an inflated officers' colony. The density of the population which is thin consists largely of Government officials. The density is only 45 persons per acre, as against 500 or more in Old Delhi. Apart from the lack of transport facilities, there are not enough post offices, schools or colleges, hospitals, libraries or recreation grounds either in Old Delhi or in New Delhi.

In order to accommodate an inflated population, the local authorities, with the help of the Central Government, embarked on the construction of numerous residential colonies in the immediate neighbourhood of Old and New Delhi. Most of these have their own shops, schools and police stations.

The following is a list of refugee housing schemes which have been completed:

(1) Rajendar Nagar; (2) Patel Nagar (Shadipur Extension); (3) Malaganj; (4) Nizamuddin Village; (5) Nizamuddin Extension; (6) Jungpura Village Extension; (7) Kalkaji; (8) Kingsway (Camp Mud houses, Hudson Lines, Outram Lines, Reids Barracks); (9) Band-stand Area; (10) Lajpat Nagar; (11) Sheikh Sarai; (12) Indra Nagar; (13) Tilak Nagar; (14) Malviya Nagar; (15) Bharat Nagar; (16) Purana Qila; (17) Kotla Ferozshah; (18) Rehgaripura; (19) Anguribagh; (20) Vijaynagar; (21) Motia Khan; (22) Nicholson Road Colony; (23) Purdah Bagh; (24) Narala; (25) Ahlanj and (26) Vidya Marghal.

The main railway station is the junction at Old Delhi, from where radiate the railway lines to the Punjab, U.P., Bombay, Calcutta and Madras. The headquarters of the Northern Railway are located here.

The following are the estimated quantities of certain selected commodities imported into the Municipalities of Delhi (monthly figures in Maunds): Wheat 207,874; Grams 164,776; Rice 21,487; Sugar 4,503; Refined sugar 74,967; Tea 7,128; Ghee, cream and butter 19,158; Dried fruits and nuts 56,953; Provisions 18,900; Coal 65,538; Steam coal, soft coke and hard coke 8,72,405; Kerosene 1,42,516 (gallons); Hides and skins 12,350; Agra stones 1,84,421; Cement 4,12,003; Asbestos sheets 305; Chemicals 41,896; Face powder and tooth paste 952; Hair oil and perfumed oil 7; English medicines 14,144; Indian medicines 29,131; Sarees 2,562; Shoes and apparel 9,544; Hardware and cutlery 1,42,914; Miscellaneous goods 2,721; Total 1,40,833.

According to 1956 figures there were 8,213 registrations (monthly averages) at the Regional Employment Exchange and 1,038 placings, but 1,697 vacancies notified.

The average number of workers employed, latest available, in the processes allied to Agriculture 18; Textile Industries 17,915; Printing, publishing and allied industries 4,421; Chemical and Chemical products industries 1,797; Non-metallic mineral product industries 1,156; Manufacture of metal products 2,982; Manufacture of machinery and electric machinery 2,679; Electric machinery 1,119.

The number of broadcast receiving licences at the end of December 1956 was 57,913.

INDUSTRY

The main industries are: cotton mills; hand and powerloom weaving; hosiery; pottery; flour mills; vegetable oil mills and expellers; paints and varnishes; rubber goods; imitation jewellery; copper and brass utensils; wire netting; sola hats; leather goods, and tanning industry.

The total number of factories registered under the Act was 392 in 1957.

The provisions of the Minimum Wages Act are fully enforced in Delhi.

The number of registered trade unions at the end of March 1957 was 273.

The total number of trade disputes reported in 1956 was 404, disputes amicably settled 83, and out of the rest 75 were referred to adjudication.

Traders from neighbouring States regularly visit Delhi to make their annual purchases which include besides textiles, hardware, hosiery, utensils and stoneware.

There is also a very flourishing grain market, serving local needs.

As in all towns, different parts of Delhi specialize in different trades. The area round about Chandni Chowk for instance is the centre for textiles and general merchandise. The trade in copper and brass utensils is located in Chawri Bazar, which in addition has a market for hardware. Khari Bawli is the granary of Delhi with the adjoining streets specializing in condiments, spices, pickles, dry fruit, etc. Lal-Kuan Bazar is noted for building material, while Sadar Bazar deals in wholesale hosiery, glass and china-ware and general merchandise. Silver-ware is retailed in Dariba Kalan, while the bullion market is localized in Chandni Chowk.

Almost all the banks have their branches in Connaught Place which is New Delhi's chief shopping centre, and Chandni Chowk.

Tourist traffic has grown into a regular new trade. Almost all the Indian and foreign air companies and travel agencies have offices in New Delhi.

AGRICULTURE

Figures given below are for 1956-57:

Total land: 365,599 acres; area under forests: 45 acres; area not available for cultivation: 78,851 acres; other uncultivated land excluding fallow land: 43,562 acres; fallow land: 11,096 acres; net area sown: 216,885; total irrigated area: 68,350 acres.

The following is a crop-wise break up of the area under food and cash crops:

Wheat, 59,067 acres; Bajra, 57,191 acres; Jawar, 46,518 acres; Maize, 2,876 acres; Barley, 15,283 acres; Grams, 22,168 acres; Sugarcane, 3,277 acres; Oilseeds, 3,673 acres; Cotton, 256 acres.

The following is the production of major crops: Wheat 16,224 tons; Gram 3,809 tons; Jawar 6,365 tons; Bajra 6,472 tons; Sugarcane 4,761 tons; Cotton 71 tons; Oilseeds 77 tons.

Till recently, Delhi had a large number of gardens where fruit such as bananas, pears, mangoes, pomegranates, lokats, figs, papais, castor-fruit and plums were grown. But they are getting less now because of urbanisation.

The pressure of population and anti-malaria drives resulted in clearing the land of these gardens.

Delhi now imports most of its fruits. But on large areas—a total of 3,106 acres—in and around the city vegetables are still grown.

It is estimated that there is one milch animal for every three or four persons. The average yield of a cow and buffalo comes to 2 sears and 4.2 sears respectively.

The annual average daily production of milk is estimated at 4,235 maunds.

There are about 40 poultry farms. It is believed about 140,000 eggs are daily imported into Delhi at an annual cost of Rs. 45 lakhs. A five-year scheme is in operation which aims at making Delhi self-sufficient in eggs.

The local consumption of fish is estimated at 150 maunds a day. Fish is at present imported, some caught in the Jamuna.

The village development scheme covers all the 309 villages. A sum of Rs. 31 lakhs has been allocated for a period of 5 years. A portion of this will be contributed by the Local Administration and the rest by the Centre towards recurring and non-recurring expenditure.

The Delhi Land Reforms Act, 1954 which came into effect on July 20, 1954, covers land tenure in the whole Territory. The Land Revenue Act provides for a uniform system of Land Revenue administration. Previously, part of the land was under the Punjab laws and part under the U.P. laws.

TRANSPORT

Delhi occupies a pivotal point in the net-work of national railways, highways and airways.

It is one of the biggest railway junctions in the country handling about 23 mail, 28 express trains besides several goods and passenger trains every day.

All the principal inter-State roads of significance converge on Delhi.

It is also linked with important cities and foreign countries by air through its two air ports, Willingdon and Palam.

There are in Delhi 600 cycle-rickshaws, over 150,000 bicycles, 13 tins, 1,250 Kharkharas, 2,000 hand carts, 1,700 animal-driven carts, 5,000 tongas, 5,072 motor cycles, 1,362 taxis and hire cars, 9,961 cars, 898 buses, 2,798 lorries, 1,207 motor rickshaws and 2,793 goods vehicles. (Figures are for 1956-57.)

Bus transport in the urban area is provided by the Delhi Transport Service, which also operates the tramway service. There are a few private buses operating in suburban areas. In 1957 the Transport Service had 450 buses operating on 30 routes. Total mileage covered per day : 40,000.

General Manager, B. K. Lall; Asstt. Genl. Mgrs. : P. D. Mehta (Adm.), C. W. Scott (Traffic).

HEALTH, EDUCATION

Birth-rate : 33.4; death-rate : 9.1; infant mortality : 80.4 per thousand people.

There are 33 hospitals and 48 dispensaries of the modern system of medicine, two Ayurvedic and Unani-hospitals and 15 dispensaries and six Homoeopathic dispensaries. The total bed strength is about 4,000.

Some leading hospitals are :

Mrs. Girdhari Lal Maternity Hospital, Circular Road, outside Almeri Gate; Hindu Rao Civil Hospital, the Ridge, Sabzi Mandi; Infectious Diseases Hospital, Kingsway; Irwin Hospital, Circular Road; Jeevan General Hospital, Panchkuin Road; Lady Harding Hospital, Panchkuin Road; St. Stephen's Missionary Maternity Hospital, Tis Hazari; Safdarjang Annexe Hospital, New Delhi; Shroff Charity Eye Hospital, Daryaganj; Silver Jubilee T.B. Hospital, Kingsway; Victoria Zenana Hospital, Machhiwalan, Daryaganj; Willingdon Hospital, Irwin Road.

Money allotted under the Second Five-Year Plan for medical development schemes : Rs. 1.5 crores.

Mortality from individual diseases is as follows (for 1957) : Small-pox, 140; dysentery and diarrhoea 490; respiratory diseases, 2,310; injuries and suicides accounted for 234 deaths. Live births 25,550; still births 200.

There are 89 higher secondary, 76 high, 91 middle, 47 senior basic, 329 primary, 272 junior basic and 3 nursery schools. Total number of students 281,413; total number of teachers 8,549.

There is one Community Development Block, one post-intensive N.E.S. Block and two N.E.S. Blocks at Shahdara and Najafgarh. Among these they cover the whole Territory.

The Development Block under the Community Projects programme has an area of 124,500 acres, of which 91,400 acres are under cultivation. It comprises 105 villages with a population of 112,500.

The N.E.S. Blocks comprise 226 villages, a population of 251,403, a total area of 219,245 acres.

The Co-operative Movement in 1957 comprised 1,565 societies, with a membership of 87,726 and a working capital of Rs. 374.36 lakhs and share capital of Rs. 55.78 lakhs. The loans advanced amounted to Rs. 1.18 crores.

1951 CENSUS

DELHI MUNICIPAL CORPORATION

The Delhi Municipal Corporation, replacing all local bodies, except the New Delhi Municipal Corporation and the Cantonment Board and constituted under the Delhi Municipal Corporation Act, 1957 came into being on April 7, 1958. The Corporation is patterned on the Bombay model. It has 86 members, including six additional members.

The Corporation will have under its jurisdiction a number of institutions which have hitherto been responsible for fulfilling a number of civic needs. They include the Delhi State Electricity Board, the Joint Water and Sewage Board and the Delhi Road Transport Authority. A special sub-committee of the Corporation will cater to the needs of the rural areas.

Parts of New Delhi and Cantonment have been kept out of the Corporation. About 90 per cent of the houses in this area are owned by the Government and most of the residents are Government employees.

The Corporation would have an income of about Rs. 10 crores.

Mr. P. R. Nayak, I.C.S., has been appointed first Commissioner of the Corporation.

The Delhi Development Authority was constituted at the end of 1957 under the Delhi Development Authority Act, 1957. It replaced the Delhi Development (Provisional) Authority. The D.D.A. is in charge of the development of Delhi and preparation of a Master Plan for the capital.

The head of the Union territory of Delhi, who will be named the Administrator, is the chairman of the Authority.

SOME INSTITUTIONS

The following are some of the educational, training and research institutions :

Kasturba Balika Vidyalyaya (Mehrauli), Harijan Vidyashala (Harijan Colony, Kingsway), Janata College (Allpore), Lady Noyce School for Deaf and Dumb (near Rajghat), Government Teachers' Training Institute for Women (Daryaganj), Lady Reading School, Indian Agriculture Research Institute (Pusa Road), Shri Ram Institute for Industrial Research (University Road, Civil Lines, Delhi), Malaria Institute of India, Patel Chest Institute (University Campus), Delhi Institute for the Blind (Panchkuin Road).

Indian Agricultural Research Institute, New Delhi (in Agriculture); Jamia Millia Islamia, Jamianagar, Delhi (General); Ayurvedic and Unani Tibbia College, Delhi (Medicine and Public Health); Statistical Branch of the Indian Council of Agricultural Research, New Delhi (Statistics); Jamia Training Institute, Jamia Millia Islamia, Jamianagar, Delhi (Teachers' training); Central Road Research Institute P.O. Okhla, New Delhi (Science); Indian Meteorological Department, New Delhi (Science); Malaria Institute of India, 22, Allpore Road, Delhi (Science); National Physical Laboratory, Hillside Road, New Delhi (Science); Department of Archaeology, New Delhi

* All these bodies except the New Delhi Municipal Committee and the Delhi Cantonment Board are extinct.

DELHI UNIVERSITY

The University of Delhi was established at Delhi in May 1922, to function as unitary teaching and residential university, but it became a Federal University by an Amendment Act No. XXIV of 1943, to the Delhi University Act VIII of 1922. The University Act was further amended by Act V of 1952. The University has now been made a teaching and affiliating University.

The University confers the following Degrees and Diplomas on students on passing the appropriate examinations:

Degrees: Ph.D. (Arts, Science, Law, Education, Medical Services and Social Sciences, M.A., M.Lib. Sc., M.Com., M.Sc., LL.M., B.L., LL.B., M.Ed., B.A. (Hons.), B.Ed., B.A. (Pass), B.Sc. (Hons.), B.Sc. (Pass), B.Com., B.Sc. (Home Science); B.Sc. (Nursing) Hons.; B.Sc. (Agriculture) Hons., B.E., B.Ch.E., B.Text., B.Arch., M.B.B.S., M.Sc. (Physiology, Pharmacology and Anatomy), M.S., and M.D. (Medicine, Obstetrics and Gynaecology and Pathology).

Diplomas: D.T.D., Dip. Lib. Sc., Diploma in Russian Language, Diploma in Hindi, Urdu and Panjabi, Diploma in Economic Administration & Diploma in Business Administration.

Certificates: Certificate of Proficiency (Law), Special Subjects Certificate in Law, Certificate of Proficiency (Russian), Certificate in French, Certificate in German, Certificate in Italian, Certificate in Swahili, Certificate in Hindi.

Medium of instruction: English.

No. of students (1956): 13,603; Income (1955-56): Rs. 33,03,221; Expenditure: Rs. 33,03,727.

Chancellor, Dr. S. Radhakrishnan.

Pro-Chancellor, Sudhi Ranjan Das.

Vice-Chancellor, Dr. V. K. R. V. Rao.

Registrar, T. P. S. Iyer.

CENTRAL COLLEGE OF AGRICULTURE

I.A.R.I., New Delhi.

The college was established by the Government of India in April 1947 and provides a well-planned training in Scientific Agriculture leading to the B.Sc. (Hons.) Agriculture degree of the Delhi University. It has been integrated with the I.A.R.I. since July 1951.

During 1955-59, only students for third year Hons. Agricultural Class will be admitted.

Principal, Dr. E. S. Narayanan, M.A., Ph.D. (Lond.), D.I.C., FRES, FRSI, FASCI, F.N.I.

CENTRAL INSTITUTE OF EDUCATION

(33 Probyn Road, Delhi 8.)

The Institute was founded on the 19th December 1947 as an all-India institution under the Central Ministry of Education, offering training particularly of an advanced nature to teachers and other educational personnel and for conducting researches in educational problems. It is affiliated to the University of Delhi for B.Ed., M.Ed. and Ph.D. degrees. Attached to it is a psychology wing with a well-equipped laboratory for conducting researches in psychology and education. There are also an experimental back school, a nursery school and a child guidance centre as part of the Institute set-up. The Institution has its own hostels for men and women students.

Principal, Dr. Ea Pires, M.A. (Lond.), Ph.D.

COLLEGE OF NURSING

(Jaswant Singh Road, New Delhi.)

The College was established by the Government of India in July 1948 for the purpose of developing a most highly qualified leadership for the nursing profession in this country. The College draws students from States throughout India. There is a 4-year course leading to the B.Sc. (Hons.) degree in Nursing. The College also provides four Post Certificate courses (1) Ward Sisters 3 months, (2) Sisters Tutors, (3) Midwifery Tutors, (4) Nursing Administration. Courses 2, 3, and 4 can be taken after successful completion of Ward Sisters' Course and are for a duration of 7 months. Open to qualified nurses with experience and ability to fit them for senior and responsible position and constructive work in hospital nursing services and education. These courses lead to certificates from the Government of India, recognised by the All India Nursing Council.

Principal, Margaretta Craig, M.A., B.Sc., R.N., R.M.

DELHI COLLEGE

(Ajmeri Gate, Delhi.)

Delhi College is the oldest college in Delhi having been established in 1828. Since September 1947, it has been reorganised as a non-communal and a co-educational college affiliated with the Delhi University. It has arrangements for teaching all Science & Arts subjects upto the M.A., M.Sc. standard.

The College building is centrally situated at the junction of Old Delhi and New Delhi at Ajmeri Gate, on premises of its own.

Principal, M. M. Bagg, M.A.

DELHI POLYTECHNIC

(Kashmere Gate, Delhi.)

There are six senior departments, viz. Engineering (Elect., Mech., Civil), Applied Science (Chem., Eng. & Tech.), Textiles, Commerce, Architecture Art, where courses leading to Delhi University degrees or diplomas or Certificates of the All India Council for Technical Education and pre-Engineering Certificate (equivalent to 1 sc.) of the Government of India are offered. The degree courses are of four years' duration inclusive of practical training (Architecture 5½ years) and the diploma-certificate courses are of 3-7 years' duration.

Attached to the Polytechnic is a Technical Higher Secondary School in which, in addition to the usual subjects, Elementary Engineering Science, Drawing and Workshop Practice are taught in the last 3 years.

Principal, S. C. Sen, B.Sc. (Engg.) (Glasgow).

DELHI SCHOOL OF ECONOMICS

(Malkaganj Rd., Delhi 8.)

This is an all-India institution which was established by the Delhi University and the Delhi School of Economics Society to concentrate on economic research in addition to undertaking some post-graduate teaching and guidance of research as in the University Department of Economics.

Director: Dr. B. N. Ganguli, M.A., F.R.S., Ph.D.

(Theatre Centre)

34, Shankar Market, Connaught Circus, New Delhi.

An all-India organization set up in 1950. There are about 300 groups affiliated with it, and through it to the International Theatre Institute. It reaches these groups through local centres in Allahabad, Bombay, Calcutta, Delhi, Gauipur (Assam), Hyderabad, Madras, Patna, Ahmedabad, Bangalore, Cuttack, Dharwar, Gauhati, Gwalior, Jabulpore, Kanpur, Manipur, Meerut, Kuchepudi, Simla, Jodhpur, Baroda, Rajkot, Coondapur, Belgaum.

The main purpose is to stimulate drama, music and art and build an integral national theatre movement without detriment to local traditions.

In January 1958, the Bharatiya Natya Sangh established the Asian Theatre Institute at New Delhi and two UNESCO experts were invited to serve on the staff. Fellowships have also been made available to students. The Institute gives training to students in all aspects of theatre production.

FEDERATION OF INDIAN CHAMBERS OF COMMERCE AND INDUSTRY (ESTD. 1927)

Federation House, Barakhamba Road, New Delhi

The Federation is recognised by the Central Government as the premier organisation representing commercial and industrial interests in the country. The headquarters of the Federation are situated in New Delhi.

The Federation has on its roll 117 Chambers of Commerce and Trade and Industrial Associations and 214 Associate Members comprising leading business houses in the country. The Federation through its constituents, covers almost the whole of the organised Indian industry and trade. It is represented on almost all important Consultative Bodies of Government. The Central Advisory Council of Industries, the Import and Export Advisory Councils, Capital Issues Advisory Committee, are some of the important Bodies which the Federation is represented.

The membership of the Federation is of four classes Ordinary, Honorary, Overseas and Associate.

The Federation issues a bulletin *Fortnightly Review* containing information and comments on current economic events in India and abroad.

The Federation has been instrumental in the establishment of allied organisations—All India Organization of Industrial Employers and the Indian National Committee of the International Chamber of Commerce.

Pataudi House, New Delhi 1.

Although sponsored by the Government of India, the Council functions as an autonomous body. It was inaugurated in April 1950 by the Prime Minister of India for the purpose of establishing, reviving and strengthening cultural relations with other countries by means of promoting a wider knowledge and appreciation of the cultural heritage of India on the one hand and on the other hand by encouraging the dissemination in India of knowledge of the culture of other countries. The Council maintains contact with similar organisations in all countries.

President: Dr. Humayun Kabir; *Vice-Presidents:* Acharya Kaka Kalelkar; K. G. Salydain; *Secretary:* Imam Rahman.

THE INDIAN COUNCIL OF MEDICAL RESEARCH

Medical Enclave, Near Safadarjung Hospital, C, 11 Type Flats Nos. 14, 15 & 16, P.B. 494, New Delhi.

The Indian Council of Medical Research was formerly known as the Indian Research Fund Association and was constituted in 1911 by the Government of India with a sum of Rs. 5,00,000 set aside as an endowment.

The control and management of the Council is vested in a Governing Body, the President of which is the Health Minister of the Government of India. This body is assisted in scientific and technical matters by a Scientific Advisory Board of which the Chairman is the Director-General of Health Services. The Board in its turn is advised by a number of committees on specific subjects.

The Council annually publishes a technical report describing the research work done by the various enquiries carried out under the auspices of the Council during each calendar year. This report is obtainable from the office of the Director, Indian Council of Medical Research, New Delhi. The Council publishes the *Indian Journal of Medical Research* and its *Memoirs* and the *Indian Journal of Malariology*. In addition, a number of special reports dealing with important subjects of medical research are also published from time to time. So far, over thirty-two such reports have been published.

The Council maintains the Nutrition Research Laboratories at Coonoor, which is the premier institution in India entirely devoted to research in nutrition and allied sciences.

Besides financing a large number of enquiries, the Council has set up nutrition research units at the Seth G. S. Medical College, Bombay, and University College of Science and Technology, Calcutta, a Clinical Research and Neuropathological Unit at the Tata Memorial Hospital, Bombay, a Clinical Research Unit and a Haematological Research Unit at the School of Tropical Medicine, Calcutta, a Polio Research Unit at the Grant Medical College, Bombay, a Liver Research Unit at the S. N. Medical College, Agra, and an Industrial Health Research Unit and a Public Health Engineering Research Unit at the All-India Institute of Hygiene and Public Health, Calcutta. A Virus Research Centre has also been set up by the Council at Poona in collaboration with the Rockefeller Foundation of the U.S.A. A Blood Group Reference Centre has been set up in Bombay.

Besides, the Council maintains two Chairs, the Chair of the Professor of Bacteriology and Pathology and the Chair of the Professor of Protozoology at the School of Tropical Medicine, Calcutta.

The Council awards a number of research fellowships to deserving medical and science graduates with a view to training teachers and research workers for medical college staffs and aiding the development of certain departments in medical colleges as post-graduate training centres.

The Council maintains a library at the Central Research Institute, Kasauli. The Council has also established Micro-film Service and Photo-copy Service Units at Kasauli, and at the Tata Memorial Hospital, Bombay.

President, D. P. Karmarkar; *Chairman, Scientific Advisory Board,* Lt.-Col. C. K. Lakshmanan; *Director,* Dr. C. G. Pandit.

INDIAN COUNCIL OF WORLD AFFAIRS

Sapru House, Sarakhamba Road, New Delhi 1.

President: Hriday Nath Kunzru.*Treasurer:* P. A. Nariswala.*Secretary-General:* S. L. Poplai.*Research Secretary:* M. S. Bajaj.*Administrative Secretary:* Devendra Nath.*Librarian:* Girja Kumar.

The Indian Council of World Affairs is a private, non-partisan, academic and research organization. It was founded in 1943. Its primary object is to promote the study of Indian and international questions so as to develop a body of informed opinion on world affairs and India's relation thereto through study, research, discussion, lectures, exchange of ideas and information with other bodies in India and abroad engaged in similar activities.

Membership activities of the Council are built around general meetings and discussion groups both at the headquarters of the Council at Delhi as well as its 23 branch centres. It arranges non-governmental international conferences from time to time and also participates in those convened by other organisations.

A Research Board plans and supervises the Council's research programmes. The Council publishes *India Quarterly* and a monthly, *Foreign Affairs Reports*. It is also associated with the publication of another monthly *Indian Affairs Record*.

The Council has so far published about 40 monographs and a large number of pamphlets. Apart from occasional publications, the Council publishes two series of biennial volumes entitled *India in World Affairs* and *Select Documents on Asian Affairs*.

The Council maintains a research library on international affairs, consisting of about 50,000 volumes and 900 periodicals.

In addition, it has special collections such as newspaper clippings; publications of the United Nations, League of Nations and other international organisations; maps and back files of selected newspapers. It is rapidly building up special collections in foreign languages like Russian, Japanese, etc. Current acquisitions lay special stress upon the countries of Asia.

As on 31st December 1957, the Council had 23 branches in most of the leading cities of India and 1,800 members.

INDIAN RED CROSS SOCIETY

Red Cross Road, New Delhi 2.

President: Dr. Rajendra Prasad (President of the Republic of India).

Chairman, Managing Body: Rajkumari Amrit Kaur.

Hon. Treasurer: P. C. Padhi.

Secretary-General: Sardar Balwant Singh Puri.

Constitution.—The Managing Body consists of a Chairman and 25 members, of whom 12 are the Vice-Presidents, 8 selected by the Society at the Annual General Meeting from among the members of the Society, and 5 nominated by the President.

Junior Red Cross.—Junior Red Cross which was started in 1926 is an integral part of the Indian Red Cross Society and is its youth section. The movement functions in over 23,418 schools and colleges with a membership of over 1,720,700.

Medical After-Care Fund.—With a view to granting relief for medical treatment and cognate purposes to the sick Indian ex-servicemen, who participated in the Second World War, the Indian Forces Medical After-Care Fund was instituted at the headquarters towards the end of 1941. The scope of the Fund was extended in 1949 so as to include the ex-servicemen of World War I. Assistance from the Fund is invoked by an increasing number of deserving cases. The total number of applications dealt with till the end of 1957 was 5,638. During 1957, 467 fresh applications were received from ex-servicemen suffering from tuberculosis, leprosy, mental and other diseases, and a sum of Rs. 56,996 was given in grants to 278 new and 191 old cases raising the total of disbursements from the fund during the last 16 years to Rs. 14,35,355. Out

of a sum of Rs. 10,000 received from the Armed Forces Reconstruction Fund in 1952 for providing medical after-care to the ex-servicemen personnel of the Jammu and Kashmir operations Rs. 9,854 have far been spent on 56 cases till the end of 1957.

Bureau of Maternity and Child Welfare.—The Maternity and Child Welfare Bureau of the Society was established in 1931.

The Bureau administers the Lady Chelmsford League Fund for maternity and child welfare, the Victoria Memorial Scholarship Fund for the training of *dais*, and the Army Child Welfare Fund. The Bureau also acts as a Central office for information and offer technical assistance.

A grant from the Government of India has made it possible to initiate work in the backward areas of Tehri-Garhwal where three welfare centres have been opened for providing maternal and child welfare services.

Relief Activities.—Emergency relief forms an important aspect of Red Cross work in India and it comprises two categories: assistance with cash grants, medical and other supplies and provision of trained field workers for first aid, ambulance service, nursing and incident duties for sudden emergencies.

Health Education.—Popular health education is another important activity. The Society publishes posters, pamphlets and other material on health subjects. Health lectures, film shows, demonstrations of slides, etc. are also regularly organised under Red Cross auspices. Two quarterly Journals are published, namely, the *India: Red Cross Journal* and the *Indian Junior*.

Hospitals.—The Society runs a Red Cross Home in Bangalore well-equipped for 75 patients for giving expert medical aid and nursing care to permanently disabled ex-servicemen. It provides various amenities and comforts including newspapers, magazines and books to patients in all military hospitals in India and to Medical Units of Jammu and Kashmir Forces. Besides, diversional therapy stores and welfare service are also provided to the military hospitals.

Finances.—The investments of the Society at the end of 1956 stood at Rs. 2,07,24,200 and the floating and fixed deposits at Rs. 3,78,543. From the total income of Rs. 6,88,646 derived from investments of the Society, a sum of Rs. 1,58,160 is distributed under the Act to the State Branches in proportion to their contribution to the Central "OUR DAY" Fund raised in the First World War.

To publish, or assist publishers, universities, learned societies etc. in the publication of large editions, at low cost, of books in Hindi and other Indian languages, and of the following categories: Indian classics, translation of famous books in foreign languages and all standard books from one Indian language into another, reproduction of Indian paintings, sculptures and other art treasures etc. Lists of short-term and long-term publications are drawn up for implementation. The funds of the society will consist of lump sum and recurring grants made by the Government of India for the furtherance of the objects of the Society and income from its publications and other sources.

Chairman: C. D. Deshmukh; *Secretary*: K. Iyara Dutt.

NATIONAL COUNCIL OF APPLIED ECONOMIC RESEARCH

Bombay Mutual Bldg., Parliament Street, New Delhi 1.

The National Council started functioning from 1st August 1956, as an independent research organisation to study current important economic problems in an objective basis on its own initiative or at the instance of Government, business concerns, associations or individuals and to help in analysing and finding solutions to specific problems in the planning and management of industrial and other undertakings. The Council has been established with the active support and encouragement of the Government of India and the business community and on its Governing Body are represented Ministers of the Central Government, leading business men and other eminent persons. The organisation provides for a broad base of membership including Life, Ordinary and Corporate Members.

The Ford Foundation has made a generous offer of donation of \$500,000 (equivalent to Rs. 25 lakhs approx.) spread over a period of 5 years towards the Council's expenses in the formative period.

At the request of the Ministries of the Government of India and some big business concerns, the Council is currently engaged in studies in respect of the following:—(a) problems of small scale industries, (b) taxation and foreign investment, (c) economics of energy resources, (d) demand forecasts, (e) economics of the mineral industry, (f) economics of road transport, etc. (g) Area Development Studies, (h) Domestic Savings.

Publications: *Taxation and Foreign Investment*; *Foreign Exchange Crisis and the Plan*; *Some Aspects of Road Transport in the Delhi*

Region; *Prospects for a Mica Grinding Plant in India*; *Utilization of Primary Energy in India*; *Export Markets for Indian Lac and Lac Products*.

(Theatre Communication Bldg., Janpath (Queensway), New Delhi.)

The Akademi is a national organization to work for the development and Co-ordination of Indian letters, and to set high literary standards. It was inaugurated on March 12, 1954.

There is a General Council of 67 members and an Executive Board of 14.

Among the more concrete projects that are before the Akademi are a national bibliography of Indian literature, a Who's Who of Indian writers, standard works in English and Indian languages on the history of modern Indian literatures, anthologies covering poetry, drama and short stories in Indian languages, translation of select classics from one Indian language into another, translation of foreign classics into Indian languages, etc.

Every year since its inauguration in 1954, the Sahitya Akademi has been awarding prizes of Rs. 5,000 each to some outstanding books published in Indian languages. Books are eligible for prizes in 16 languages: the 14 major languages enumerated in the Indian Constitution and Sindhi and English (as written by Indian authors). Five books in Bengali, Hindi, Malayalam, Telugu and Urdu respectively were adjudged worthy of award in 1957.

President, Jawaharlal Nehru.*Vice-President*, Dr. S. Radhakrishnan.*Secretary*, Krishna Kripalani.**SANGEET NATAK AKADEMI**

(National Academy of Dance, Drama & Music)

70, Regal Buildings, New Delhi 1.

The Akademi was inaugurated on January 28, 1953. The purpose is to foster Indian dance, drama (including films) and music and promote through them the cultural unity of India.

At present the Akademi is conducting a survey of art-forms in the country; it will also build libraries of musical records and of films of classical dancers.

There is a General Council, an Executive Board and a Finance Committee. The General Council consists of representatives among others of Central and State Governments and leading cultural organizations.

It promotes research, encourages setting up of Theatre Centres and training institutions and production of plays, publishes literature, awards prizes and distinctions, grants financial assistance, promotes cultural exchanges with other countries.

The Akademi organised two Music Festivals—one in March 1954 in Delhi, and the other in March 1956 in Patna. The first National Drama Festival was organised in November 1955 in Delhi which lasted for more than three weeks. In the course of the festival 21 plays in 14 Indian languages including Sanskrit and a Greek play, in English were presented. The first National Dance Festival was organised again in Delhi in November-December 1955 in which all the classical and traditional styles of Indian dance were presented by most eminent artistes and groups in the country. The Akademi also organised two Seminars—one on Films and the other on Drama in 1955 and 1956 respectively.

In April-May 1957 it organized a seminar on Indian music, and in March-April 1958 one on Indian dances.

INDIAN STANDARDS INSTITUTION

Manek Bhavan, 9, Mathura Road, New Delhi 1.

The I.S.I. was brought into existence by the Government of India Resolution No. 1-Std.(4)/45 dated 3rd Sept. 1946.

The aims and objects of the Institution include the co-ordination of efforts of Producers and Consumers for the improvement of materials, products, appliances, processes and methods; introduction of codes of practice; provision or arrangement for facilities for examination and testing of commodities, processes and practices.

The affairs of the Institution are administered by a General Council, which is representative of various Ministries of the Government of India, the Governments of States, the professional societies of technologists and scientists, the chambers of commerce and industry, about 1,500 subscribing members of the I.S.I. and other allied interests.

The technical work of preparing standards, specifications, codes of practice, etc., is carried out under the authority of the seven division councils, namely, (a) Engineering, (b) Textiles, (c) Chemicals, (d) Buildings, (e) Agricultural and Food Products, and (f) Structural and Metals and (g) Electro-technical and a Statistical Section.

A notable contribution by the Institution during the year 1957-58 has been towards the solution of the problems arising out of the decision to introduce metric weights and measures in the country. It has issued a guide for inter-conversion of values from one system of units to another, standard conversion factors and conversion tables, and specifications for commercial metric weights, metric capacity and dispensing measures.

A Certification Marks Scheme was put into practice in March 1958, and the Institution now considers applications and grants licences for use of standard marks on products which conform to Indian Standards.

The income of the Institution is derived from (a) Government grants, (b) contributions from industry and other interested public bodies, (c) subscriptions from members, and (d) sale of Indian Standards, etc.

GENERAL COUNCIL

President, Morarji Deval (*Minister for Finance, Government of India*); *Vice-Presidents*, E. A. Nadirshah (*Chief Engineer, Concrete Association of India, Bombay*), Lala Sri Ram; *Secretary (ex-officio)*: Dr. Lal C. Verman, *Director (Indian Standards Institution)*.
